

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, June 11, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Initial attack activity:	Light (106 fires)
New large incidents:	10
Large fires contained:	1
Uncontained large fires: **	10
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 23 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Southwest Area (PL 4)

New fires:	16
New large incidents:	4
Uncontained large fires:	8
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	1

Black, Gila NF, USFS. IMT 2 (SW Team 3). Twenty-four miles north of Mimbres, NM. Timber and grass. Active fire behavior with flanking, backing and short-range spotting. Structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Hermits Peak, Santa Fe NF, USFS. NIMO (Team 2), IMT 1 (SW Team 2) and IMT 1 (SW Team 1). Twelve miles northwest of Las Vegas, NM. Hardwood litter, timber and light slash. Moderate fire behavior with flanking, backing and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

* **Cerro Bandera**, Bernalillo District, NM State Forestry. Eighteen miles southeast of Grants NM. Timber, short grass and brush. Moderate fire behavior with flanking, backing and short-range spotting. Road closures in effect.

Deer Creek, Coronado NF, USFS. Twenty-five miles southwest of Animas, NM. Grass and brush. Minimal fire behavior with backing, creeping and smoldering. Reduction in acreage due to more accurate mapping.

Cerro Pelado, Santa Fe NF, USFS. Seven miles east of Jemez Springs, NM. Grass, closed timber litter and medium slash. Minimal fire behavior.

* **Midnight**, Carson NF, USFS. Eight miles northwest of El Rito, NM. Timber and medium slash. Extreme fire behavior with wind-driven runs, group torching and long-range spotting. Structures threatened.

* **Adam**, Gila NF, USFS. Twenty miles southeast of Reserve, NM. Timber and brush. Active fire behavior with backing and flanking. Structures threatened.

* **Mixen**, Las Cruces Field Office, BLM. Eleven miles south of Alamogordo, NM. Short grass. Minimal fire behavior.

Alaska Area (PL 3)

New fires:	9
New large incidents:	5
Uncontained large fires:	0
Type 2 IMTs committed:	1

East Fork, Galena Zone, BLM. IMT 2 (AK Green Team) mobilizing. Started on FWS land 25 miles northeast of St. Mary's, AK. Timber, brush and grass. Extreme fire behavior with wind-driven runs and isolated torching. Several communities threatened.

Fourth of July Creek, Southwest Area, Alaska DOF. Previously reported incident. Thirty- five miles west of McGrath AK. Timber. Active fire behavior with running, torching and short-range. Last narrative report unless significant activity occurs.

South Lime Lake, Southwest Area, Alaska DOF. Previously reported incident. Seventeen miles northeast of Lime Village, AK. Timber and brush. Active fire behavior with creeping and smoldering. Last narrative report unless significant activity occurs.

Tatlawiksuk, Southwest Area, Alaska DOF. Previously reported incident. Forty-one miles south of McGrath, AK. Timber. Active fire behavior with torching, creeping and spotting. Last narrative report unless significant activity occurs.

Aghaluk Mountain, Southwest Area, Alaska DOF. Previously reported incident. Forty-nine miles east of Aniak, AK. Short grass. Active fire behavior with backing, torching and spotting. Last narrative report unless significant activity occurs.

Kiknik, Southwest Area, Alaska DOF. Previously reported incident. Sixty-six miles southwest of Lime Village, AK. Timber and brush. Active fire behavior with creeping, backing and single tree torching. Last narrative report unless significant activity occurs.

* **Sawpit Creek**, Southwest Area, Alaska DOF. Twenty miles south of Aniak, AK. Timber. Active fire behavior with smoldering and backing. Last narrative report unless significant activity occurs.

* **Hook Creek**, Southwest Area, Alaska DOF. Thirty-four miles southwest of Lime Village, AK. Timber and brush. Active fire behavior with creeping and smoldering. Last narrative report unless significant activity occurs.

* **Submarine Creek**, Southwest Area, Alaska DOF. Forty-five miles west of Telida, AK. Timber, tall grass and hardwood litter. Active fire behavior with backing, group torching and short-range spotting. Structures threatened. Last narrative report unless significant activity occurs.

* **Fork Ceek**, Southwest Area, Alaska DOF. Started on FWS land 65 miles southeast of Bethel, AK. Timber. Active fire behavior with creeping, backing and torching. Last narrative report unless significant activity occurs.

* **Ongivinuk River**, Southwest Area, Alaska DOF. Fifty miles northwest of Dillingham, AK. Brush. Minimal fire behavior with creeping and smoldering. Last narrative report unless significant activity occurs.

Predictive Services Discussion: Upper-level ridging will continue over much of the West, but an upper-level trough will approach the Pacific Northwest tonight bringing isolated to scattered showers and thunderstorms to Pacific Northwest and northern Rockies, west of the Divide. Hot and dry conditions will continue across much of the West, especially the southern half of it. However, winds will start to increase over the Great Basin, especially the western Great Basin. Isolated mixed wet and dry thunderstorms remain likely over eastern Arizona, much of New Mexico, and into southern Colorado. Showers and thunderstorms are forecast across the Great Lakes, Upper Midwest, and from the central Gulf Coast to New England. Marginally severe storms are possible from southeast Montana through the Missouri Valley. Well above normal temperatures are expected across Texas and the southern and central Plains, with RH of 5-25% on the southern and central High Plains.

In Country Not Seen in Daylight

Operational Engagement Category

Often, firefighters arrive on a fire after dark, addressed by Watch Out Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify where you can get information. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area or use scouts? List ways you could observe the work area.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone. Who would identify them and in what ways might they be marked?
- Have potential dangers been located? Can they be mitigated? What are the dangers associated with working in unfamiliar country in the dark? How can they be mitigated?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreating if you have doubts about your escape routes or safety zones or the situation becomes too complex.
 - Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features.
