

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday, June 18, 2022 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (111 fires)
New large incidents:	2
Large fires contained:	0
Uncontained large fires: **	14
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	5
***Complex IMTs committed:	0

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 30 fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

**Southwest Area (PL 4)**

New fires:	4
New large incidents:	0
Uncontained large fires:	10
NIMOs committed:	1
Type 1 IMTs committed:	2
Type 2 IMTs committed:	3

**Contreras**, Papago Agency, BIA. IMT 2 (EA Gold Team). Fifteen miles northeast of Topawa, AZ. Brush and short grass. Extreme fire behavior. Structures threatened. Road and trail closures in effect.

**Haywire**, Coconino NF, USFS. IMT 1 (GB Team 2). IMT is also managing the Pipeline fire. Seventeen miles northeast of Flagstaff, AZ. Timber, brush and short grass. Active fire behavior with single tree torching, backing and flanking. Energy infrastructure and numerous residences threatened. Area, road and trail closures in effect.

**Pipeline**, Coconino NF, USFS. Five miles north of Flagstaff, AZ. Timber, brush and grass. Active fire behavior with single tree torching, backing and flanking. Communication infrastructure and numerous structures threatened. Evacuations, area, road and trail closures in effect.

**Black**, Gila NF, USFS. IMT 2 (SW Team 4). Twenty-four miles north of Mimbres, NM. Grass and timber. Active fire behavior with flanking, backing and creeping. Structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Raspberry**, Coronado NF, USFS. Eleven miles northeast of Portal, AZ. Timber, brush and short grass. Moderate fire behavior with isolated torching. Structures and communication infrastructure threatened.

**Hermits Peak**, Santa Fe NF, USFS. NIMO (Team 2), IMT 1 (SW Team 1) and IMT 2 (SW Team 5). IMT 1 (SW Team 1) is also managing the Midnight fire. Twelve miles northwest of Las Vegas, NM. Hardwood litter, timber and light slash. Moderate fire behavior with flanking, backing and smoldering. Numerous residences threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Midnight**, Carson NF, USFS. Eight miles northwest of El Rito, NM. Timber. Minimal fire behavior with smoldering. Numerous residences threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Tonto Canyon**, Coronado NF, USFS. Seven miles southeast of Ruby, AZ. Brush and tall grass. Moderate fire behavior with flanking, backing and creeping. Area and road closures in effect.

**Cerro Bandera**, Bernalillo District, NM State Forestry. Eighteen miles southeast of Grants, NM. Timber, grass and brush. Minimal fire behavior with smoldering.

**Fish**, Apache-Sitgreaves NF, USFS. Twenty miles southwest of Alpine, AZ. Timber and medium slash. No new information.

### **Alaska Area (PL 3)**

New fires: 3  
New large incidents: 1  
Uncontained large fires: 0  
Type 2 IMTs committed: 2

**Lime Complex** (12 fires), Southwest Area Forestry, Alaska DOF. IMT 2 (AK Black Team). Fifty miles east of Chuathbaluk, AK. Grass, timber and brush. Active fire behavior with spotting, single and group tree torching. Numerous structures threatened. Precipitation occurred over the fire area yesterday.

**East Fork**, Galena Zone, BLM. IMT 2 (AK Green Team). IMT is also managing the Apoon Pass fire. Started on FWS land 25 miles northeast of St. Mary's, AK. Minimal fire behavior with backing, creeping and smoldering. Numerous structures threatened. Precipitation occurred over the fire area yesterday.

**Apoon Pass**, Galena Zone, BLM. Started on FWS land 24 miles north of Mountain Village, AK. Timber, brush and short grass. No new information. Last report unless new information is received.

\* **Melozitna**, Galena Zone, BLM. Twenty- three miles northeast of Ruby, AK. Brush, timber and tall grass. Active fire behavior with backing, creeping and torching. Residences threatened. Last narrative report unless significant activity occurs.

**Fourth of July Creek**, Southwest Area, Alaska DOF. Previously reported incident. Thirty-five miles west of Mcgrath AK. Timber. Minimal fire behavior with smoldering and creeping. Last narrative report unless significant activity occurs.

\*1 Hectare = 2.47 Acres

**Predictive Services Discussion:** Monsoon moisture will continue to increase over the greater Four Corners area as a deep upper trough remains along the West Coast with high pressure strengthening over the Plains. Scattered to numerous wet thunderstorms are likely in the plume of deepest moisture from central Arizona into western New Mexico then into southeast Utah and the West Slope. However, across the western periphery of the moisture plume across portions of northwest Arizona into south-central Utah, isolated mixed wet and dry thunderstorms are possible. Critical south to southwest winds will continue across eastern Nevada into west-central and northwest Utah. Breezy south winds will continue across much of the Plains, with elevated to locally critical conditions possible across the central High Plains of Colorado, Nebraska, and Kansas. Breezy and dry conditions will also spread into much of eastern Wyoming and eastern Montana with breezy and northwest winds across the southern Appalachians into the Carolinas and Georgia. Showers and thunderstorms are likely across the Florida Peninsula from a stalled cold front while scattered showers and thunderstorms are expected across the Northwest, northern California, and Northern Rockies west of the Divide.

## No Communication Link with Crewmembers or Supervisor

*Fire Communication Category*

Watch Out Situation #7 is a danger that must be mitigated by maintaining good communications while working on fires. Firefighters must constantly ask themselves the following questions as situations change on the fireline:

### ● Can communication(s) be established?

- Talk about how communications are set up on fires, including the variables that must be considered.
- Review situations where communications were a problem. Discuss what was done to fix the problem.
- Ask yourself, “Do we need a repeater setup or can an experienced firefighter act as a human repeater?”

### ● Is the communication triangle complete?

- Review the communication triangle: speaker, message, and audience. Discuss where it comes up in the 10 Standard Fire Orders and the 18 Watch Out Situations.
- Discuss ways that firefighters can maintain the communication triangle on the fireline.

### ● How can we reduce the risks?

- If the situation is complex, wait until communications are in place.
- Talk about the fires where crews had to leave the line, did not go out on the line, or something negative happened because communications were inadequate. Discuss what was done to establish communications in these situations.
- Discuss scenarios in which communications could be disrupted. What are some possible solutions?
