

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, March 30, 2022 – 0730 MDT
National Preparedness Level 2**

National Fire Activity :

Initial attack activity:	Light (166 Fires)
New large incidents:	17
Large fires contained:	6
Uncontained large fires: ***	42
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	1

Nationally, there are 0 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 4)

New fires:	144
New large incidents:	16
Uncontained large fires:	40
Type 2 IMTs committed:	1

Thomas Divide, Great Smoky Mountains NP, NPS. IMT 2 (SA Gold Team). Two miles northeast of Bryson City, NC. Minimal fire behavior with backing. Residences threatened.

Eastland Complex (3 fires), Texas A&M Forest Service. Started on private land two miles southeast of Romney, TX. Grass and timber. Minimal fire behavior with smoldering. Numerous residences threatened.

Chimney Rock, Cherokee NF, USFS. Six miles northeast of Del Rio, TN. Hardwood litter. Minimal fire behavior with creeping and smoldering. Residences threatened. Road and trail closures in effect.

* **Washita River**, Oklahoma DOF. Two miles southeast of Durham, OK. Timber, brush and grass. Extreme fire behavior with wind-driven runs, flanking and short crown runs. Structures threatened. Evacuations and road closures in effect.

Crittenburg Complex, Texas A&M Forest Service. Started on private land 12 miles southeast of Gatesville, TX. Tall grass and brush. Minimal fire behavior with creeping and smoldering. Several communities threatened.

Das Goat, Texas A&M Forest Service. Started on private land 15 miles northeast of Hondo, TX. Brush and tall grass. Minimal fire behavior with smoldering. Numerous residences threatened. Precipitation occurred over the fire area yesterday.

Cedar Creek, North Carolina Forest Service. Ten miles southeast of Fayetteville, NC. Southern Rough. Extreme fire behavior with spotting.

* **Webster Ranch**, Osage Agency, BIA. One mile southwest of Barnsdall, OK. Hardwood litter and tall grass. Extreme fire behavior with running, flanking and backing. Structures threatened.

Blue Devil, Wewoka Agency, BIA. Five miles southeast of Bowlegs, OK. Hardwood litter and tall grass. Extreme fire behavior with running and spotting. Residences threatened.

* **Rocky Point**, National Forests in Florida. Four miles east of salt springs, FL. Southern Rough. Active fire behavior with running.

Sulphur Mountain, Oklahoma DOF. Two miles southeast of Kiamichi, OK. Hardwood litter and short grass. Moderate fire behavior with backing and uphill runs. Structures threatened.

Salt, Okmulgee Field Office, BIA. Eight miles northwest of Henryetta, OK. Tall grass. Extreme fire behavior with running and flanking. Structures threatened.

Round Mountain, Oklahoma DOF. Thirteen miles southeast of Stillwell, OK. Hardwood litter. Active fire behavior with wind-driven runs.

Gator, Oklahoma DOF. Thirteen miles north of Muldrow, OK. Hardwood litter and timber. Active fire behavior with spotting.

* **Paradise Cove**, Virginia DOF. Three miles east of Blackwater, VA. Timber, brush and grass. Active fire behavior with flanking and backing.

Boggs Hollow Creek, Oklahoma DOF. Nine miles south of Wilburton, OK. Closed timber litter and tall grass. Minimal fire behavior with backing.

* **1170 Donithon**, Kentucky DOF. Five miles northeast of Ulysses, KY. Timber and short Grass. Active fire behavior with creeping and backing.

* **Birch Creek**, Osage Agency, BIA. Two miles southwest of Barnsdall, OK. Short and tall grass. Extreme fire behavior with running and flanking. Structures threatened.

Sardis Church, Oklahoma DOF. Ten miles south of Hartshorne, OK. Closed timber litter and tall grass. Moderate fire behavior with uphill runs, flanking and backing.

West Buffalo, Oklahoma DOF. Seven miles northwest of Wilburton, OK. Closed timber litter. Moderate fire behavior with backing and uphill runs.

Copeland Ranch, Oklahoma DOF. Three miles southeast of Locust Grove, OK. Timber and slash. Active fire behavior with uphill runs.

* **Carol Lane**, Alabama Private Lands. Started on private land 12 miles northeast of Attalla, AL. Chaparral. Minimal fire behavior.

* **Canadian River Bottom**, Texas A&M Forest Service. Started on private land 15 southwest of Canadian, Texas. Tall grass. Extreme fire behavior with wind-driven runs and long-range spotting. Evacuations in effect.

* **Nunn**, Texas A&M Forest Service. Started on private land 53 miles northwest of Alpine, TX. Tall grass and brush. Active fire behavior with wind driven runs.

Bosque River, Texas A&M Forest Service. Started on private land three miles east of Iredell, TX. Tall grass and brush. Moderate fire behavior with creeping and spotting.

West Nueces, Texas A&M Forest Service. Started on private land 34 miles northwest of Uvalde, TX. Tall grass and brush. Active fire behavior with wind-driven runs.

TV3, Oklahoma DOF. Five miles northeast of Quinton, OK. Closed timber litter and tall grass. Minimal fire behavior. Structures threatened.

Quinton Overlook, Oklahoma DOF. Two miles north of Quinton, OK. Closed timber litter and tall grass. Minimal fire behavior.

Pebble Ridge, Oklahoma DOF. Seven miles south of Eufaula, OK. Closed timber litter. Minimal fire behavior.

* **Stone Gate**, Alabama Private Lands. Started on private land 13 miles southeast of Birmingham, AL. Brush. Moderate fire behavior.

* **Walnut Creek**, Osage Agency, BIA. Two miles west of Prue, OK. Hardwood litter and tall grass. Active fire behavior with wind driven-runs and flanking. Structures threatened.

* **Scott Hollow**, Oklahoma DOF, State Government Agencies. Eight miles southeast of Tahlequah, OK. Tall grass and timber. Active fire behavior with wind-driven runs.

* **Lickfork**, Virginia DOF. Seven miles southeast of Kenady, VA. Timber. Active fire behavior with uphill runs and flanking. Structures threatened.

* **Hollingsworth**, Alabama Private Lands. Started on private land six miles northeast of Bay Minette, AL. Brush. Minimal fire behavior.

Chipola Complex (2 fires), Florida Forest Service. Eighteen miles east of Panama City, FL. Heavy slash, brush and tall grass. No new information. Last report unless new information is received.

Golf Course, Chickasaw Agency, BIA. Four miles north of Wetumka, OK. No new information.

Ramsey, Texas A&M Forest Service. Two miles northwest of Blanket, TX. Timber and brush. No new information.

9,219

Ten Year Average Acres (2011 – 2020 as of today)

443,569

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: Critical fire weather conditions will shift to the southern half of Texas today, with lingering dry and breezy conditions expected into southern New Mexico. Elevated fire weather conditions are likely from the Florida Peninsula stretching north through the southern and central Appalachians and eastern Ohio Valley amid southerly winds of 15-30 mph and minimum RH of 25-45%. Dry conditions will continue across much of the Northeast as well.

Severe thunderstorms, with the potential for heavy rain and flooding, will develop from the Lower Mississippi Valley and central Gulf Coast northward through the Ohio Valley and extending to the western slopes of the Appalachians overnight. Snow will fall across portions of the Upper Midwest and western Great Lakes as well. Lingering rain and snow showers are expected across the southern Rockies and portions of the southern High Plains, with precipitation in western Washington, northwest Oregon, and portions of the northern Rockies. Scattered precipitation will accompany a cold front moving across the northern and eastern portions of the Great Basin late today into tonight.

Nomex® is the brand name for a heat and flame-resistant textile made by the DuPont chemical company and first marketed in 1967. Today, more than three million firefighters and aviation personnel around the world are protected by structure fire turnout gear, wildland fire personal protective equipment (PPE), and flight suits and jackets made of Nomex®.

Nomex® is not flame-proof. It burns when you hold a flame to it, but stops burning once the heat source is removed. The thick woven structure of synthetic fibers is a very poor conductor of heat. When exposed to heat, the fibers expand, closing the spaces between them insulating the wearer. But to work correctly, Nomex® needs proper care.

Dirty Nomex®

- Wash Nomex® like normal laundry, but always include a rinse cycle that adequately removes soaps and detergents.
- Nomex® garments should never be subjected to strong oxidizing agents such as peroxides or bleaches. These products harm the physical strength of the fabric.
- Tumble dry and remove while slightly damp. Over-drying damages the fabric.

Poison Oak/Ivy/Sumac on Nomex®

National Technology and Development Program (NTDP) conducted research on laundering Nomex® firefighting clothing that has been contaminated with urushiol oil (what causes the rash) from poison oak/ivy/sumac exposure.

- NTDP recommends that fire clothing contaminated with urushiol oil be cleaned following normal Nomex® laundering procedures, with a degreaser such as a detergent or a laundry soap, and as soon as possible.
- Extra care should be exercised when handling the contaminated clothing, and it should be kept separate from unaffected clothing and equipment.
- Put the affected clothing in a marked bag if you are giving it to someone else to wash. Before handling the affected clothing, apply a skin-barrier product such as Ivy Block or Technu®.

Fuel-Soaked Nomex®

Flammable contaminants will reduce the thermal performance of any flame-resistant garment including Nomex®.

- Proper and periodic cleaning is essential to maintain thermal protective performance.

Action Item – Nomex® is not effective if it is excessively dirty, fuel-soaked, or has holes. Does your Nomex® need to be washed, repaired, or replaced?
