

**National Interagency Coordination Center**  
**Incident Management Situation Report**  
**Sunday, May 22, 2022 – 0730 MDT**  
**National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (81 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires: **	17
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	4
***Complex IMTs committed:	2

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there is one fire being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

### Southwest Area (PL 5)

New fires:	16
New large incidents:	0
Uncontained large fires:	6
Type 1 IMTs committed:	3
Type 2 IMTs committed:	3

**Hermits Peak**, Santa Fe NF, USFS. IMT 1 (SW Team 1), IMT 1 (CA Team 2) and IMT 1 (CA Team 5). Twelve miles northwest of Las Vegas, NM. Grass and timber. Extreme fire behavior with crowning, group torching and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

**Black**, Gila NF, USFS. IMT 2 (SW Team 5). Twenty-four miles north of Mimbres, NM. Timber and chaparral. Active fire behavior with uphill runs, wind-driven runs and flanking. Structures threatened. Evacuations, area, road and trail closures in effect.

**Bear Trap**, Cibola NF, USFS. IMT 2 (SW Team 4). Twenty-two miles southwest of Magdalena, NM. Timber. Active fire behavior with running, flanking and backing. Structures threatened. Area, road and trail closures in effect.

**Cerro Pelado**, Santa Fe NF, USFS. IMT2 (RM Team 3). Seven miles east of Jemez Springs, NM. Grass, brush and timber. Minimal fire behavior with creeping and smoldering. Evacuation, area, road and trail closures in effect.

**Biggs**, Capitan District, New Mexico State Forestry. Seven miles east of Corona, NM. Brush and grass. Moderate fire behavior with creeping and isolated torching. Energy infrastructure, communication infrastructure and residences threatened. Road closures in effect.

**Burchard 519**, Cimarron District, New Mexico State Forestry. Twenty-two miles northeast of Des Moines, NM. Brush and grass. Minimal fire behavior with backing, creeping and smoldering. Structures threatened.

### Rocky Mountain Area (PL 2)

New fires:	2
New large incidents:	0
Uncontained large fires:	4
CIMTs committed:	2

**Simms**, Grand Mesa, Uncompahgre and Gunnison NF, USFS. CIMT (RM Team 1). Fourteen miles southwest of Montrose, CO. Chaparral. Minimal fire behavior with creeping . Structures threatened. Evacuations, area and road closures in effect.

**Plumtaw**, San Juan NF, USFS. CIMT (RM Team 2). Seven miles northwest of Pagosa Springs, CO. Timber and medium slash. Moderate fire behavior with creeping, isolated torching and smoldering. Structures threatened. Evacuations, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

**201 East**, Nebraska NF, USFS. Four miles south of Halsey, NE. Timber. Minimal fire behavior.

**High Park**, Teller County. Six miles west of Cripple Creek, CO. Timber and tall grass. Minimal fire behavior with creeping and smoldering.

Incident Name	Unit	Size		%	Ctn/ Comp	Est	Personnel		Resources			Strc Lost	\$\$ CTD	Origin Own

\*\*\*Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <https://qacc.nifc.gov/>

**Predictive Services Discussion:** Upper troughing will gradually weaken across the Intermountain West with strong upper ridging along the East Coast. A cold front will move off the Northeast and Mid-Atlantic coasts tonight and move slowly into the Southeast before stalling. Record high temperatures are expected again today across the Northeast before the cold front moves through this evening with severe thunderstorms possible. Breezy and dry conditions are forecast across Arizona, southern Nevada, southern Utah, and New Mexico west of the Divide this afternoon. Critical conditions will develop across central and eastern Arizona into far western New Mexico. Above normal temperatures will continue over south-central Alaska and the Copper River Basin with low afternoon relative humidity, but south winds will be lighter than yesterday. Scattered showers and thunderstorms will move into the northern central Rockies with high elevation snow. Showers and thunderstorms will also develop across the Gulf Coast, Southeast, and into the Mid-Atlantic in association with the cold front.

## Instructions and Assignments Not Clear

Fire Communications Category

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did you use the *Incident Response Pocket Guide* (IRPG), PMS 461, standards briefing checklist?
- Did they ask questions? Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Talk with coworkers about what it is like giving a briefing.
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is understood?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
  - Task
  - Location
  - Communications
  - Hazards
  - Who, when, etc.

It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:

- Did you really listen? What do you do to make yourself pay attention to everything being said?
- Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- You must know the location of the assignment and:
  - What is to be done.
  - Who you are to report to and how often to report.
  - Expectations for completing the assignment.
  - Hazards.
  - Communication plan frequencies.
  - Weather and fire behavior.
  - Status of adjoining forces.
