

National Interagency Coordination Center
Incident Management Situation Report
Saturday, October 1, 2022 – 0730 MDT
National Preparedness Level 2

National Fire Activity:

Initial attack activity:	Light (49 fires)
New large incidents:	1
Large fires contained:	5
Uncontained large fires: **	21
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	3
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 66 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

[Link](#) to Understanding the IMSR.

IMT 1 (Florida Gold Team) has been mobilized to Orlando, FL to assist with Hurricane Ian search and rescue operations. IMT 1 (SA Red Team) has been mobilized to Dothan, AL to stage for Hurricane Ian support.

Northwest Area (PL 2)

New fires:	1
New large incidents:	0
Uncontained large fires:	8
Type 2 IMTs committed:	2

Cedar Creek, Willamette NF, USFS. IMT 2 (NW Team 7) and IMT 2 (NW Team 9). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Minimal fire behavior with creeping, isolated torching and smoldering. Numerous structures threatened. Area, road and trail closures in effect.

Double Creek, Wallowa-Whitman NF, USFS. Ten miles southeast of Imnaha, OR. Timber and grass. Minimal fire behavior with creeping and smoldering. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Goat Rocks, Gifford Pinchot NF, USFS. Eight miles east of Packwood, WA. Timber and closed timber litter. Minimal fire behavior with flanking, backing and creeping. Numerous residences threatened. Area, road and trail closures in effect.

White River, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

Irving Peak, Okanogan-Wenatchee NF, USFS. Twenty-six miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Structures threatened. Area, road and trail closures in effect.

Minnow Ridge, Okanogan-Wenatchee NF, USFS. Twenty-five miles north of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Area, road and trail closures in effect.

Vines Hill, Vale District, BLM. Six miles east of Harper, OR. Brush and short grass. Minimal fire behavior with smoldering. Structures and sage-grouse habitat threatened.

Kalama, Gifford Pinchot NF, USFS. Six miles north of Cougar, WA. Timber and light slash. No new information.

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov>

Predictive Services Discussion: Tropical Storm Ian is forecast to weaken to a tropical depression as it tracks north-northwest into western Virginia. Heavy rain (1-3") will fall over much of West Virginia and portions of Virginia, the Upper Ohio Valley, southern Pennsylvania, and coastal Delaware, New Jersey, and southern New England. Continued low relative of 20-35% is expected across the western Ohio Valley into the Mid and Lower Mississippi Valleys to the central Gulf Coast, east and central Texas, and eastern Oklahoma, with occasionally gusty northerly to easterly winds. South-southeast sustained winds of 12-20 mph gusting 20-30 mph amid minimum relative humidity of 15-30% is forecast across much of the Plains into the Missouri and Upper and Mid-Mississippi Valleys likely resulting in locally elevated conditions. Isolated to scattered thunderstorms are likely from the Southwest through the greater Four Corners and Wyoming into southern Montana and the northern High Plains, with scattered showers likely across much of Montana into Wyoming, eastern Idaho, and western North Dakota.

Spot Weather Forecast

Weather – Fire Behavior Category

Spot weather forecasts should be requested or submitted online for those fires that have potential for extreme fire behavior, exceed initial attack, or are located in areas where Red Flag Warnings have been issued.

Basic elements needed for a spot weather forecast include:

- Location by street address/zip code/city name, latitude/longitude, or US National Grid, or drag to a location using the spot weather forecast request webpage <https://www.weather.gov/spot/>.
- Type of incident (wildfire, prescribed burn, hazardous materials, search and rescue).
- Project/incident name.
- Requesting agency/official, email address, and phone number.
- Elevation (at top and bottom of incident).
- Drainage name, size, aspect, fuel type, and sheltering (full, partial, unsheltered).
- Forecast delivery time (i.e., as soon as possible or a later time), time forecast should start, and time zone.
- Any remarks that can help meteorologists forecast the site, pertinent feedback information (i.e., humidity values were lower than predicted), or special requests (i.e., very interested in potential wind shifts).

Activity

Calibrate your handheld fire weather meter and review belt weather kit use. Refer to the [NWCG Standards for Fire Weather Stations, PMS 426-3](#), for information.
