

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, October 4, 2022 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (71 fires)
New large incidents:	6
Large fires contained:	3
Uncontained large fires: **	13
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	5
***Complex IMTs committed:	1

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 66 fires being managed under a strategy other than full suppression.

\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

### Northwest Area (PL 2)

New fires: 7  
 New large incidents: 0  
 Uncontained large fires: 5  
 Type 2 IMTs committed: 2

**Cedar Creek**, Willamette NF, USFS. IMT 2 (NW Team 7) and IMT 2 (NW Team 9). Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Minimal fire behavior with uphill runs, creeping and smoldering. Numerous structures threatened. Area, road and trail closures in effect.

**Double Creek**, Wallowa-Whitman NF, USFS. Ten miles southeast of Imnaha, OR. Timber and grass. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect.

**Goat Rocks**, Gifford Pinchot NF, USFS. Eight miles east of Packwood, WA. Timber and closed timber litter. Moderate fire behavior with torching, flanking and backing. Numerous residences threatened. Area, road and trail closures in effect.

**White River**, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing, flanking and isolated torching. Numerous structures threatened. Area, road and trail closures in effect.

**Kalama**, Gifford Pinchot NF, USFS. Six miles north of Cougar, WA. Timber and light slash. Moderate fire behavior with creeping, smoldering and backing. Structures threatened. Area, road and trail closures in effect.

\*\*\*Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov>

**Predictive Services Discussion:** A cold front will push south and east through the central Plains into the southern Plains. Dry and breezy southerly winds will develop across portions of the southern and central Plains into Iowa ahead of the cold front, and isolated to scattered thunderstorms are likely along and ahead of the cold front extending from Minnesota through the Southwest, with the greatest coverage of thunderstorms in portions of the Southwest. Low relative humidity of 12-30% will develop from the southern Great Lakes to the central Gulf Coast and central Texas, but winds should remain light. Warm and dry conditions will continue in California, the western and northern Great Basin, and the Inland Northwest, while rain will continue along coastal portions of the Mid-Atlantic and southern New England.

## Extended Attack

### Operational Engagement Category

After the initial size-up of the fire and/or transfer of command from an initial attack Incident Commander (IC), task yourself with answering the following questions. Repeat this analysis whenever there is a change, or predicted change, in fire conditions.

- Do you have a current fire weather forecast for the fire location?
- Is the observed fire weather consistent with the forecast?
- Have you established a new organizational structure and communicated it to the assigned resources and support functions associated with the fire?
- Can you control the fire with the resources available (either on the incident or en route) under expected conditions?
- Have you developed a plan to attack the fire?
  - Direct or indirect
  - Anchor points
  - Escape routes
  - Safety zones
  - Head or flank attack
  - Priority areas
- Have you communicated the plan to all personnel assigned to the incident, including new arrivals?
- Can you see the entire fire area? Do you have lookouts posted?
- Can you communicate with everyone on the fire and with dispatch?
- Are escape routes established?
  - If you are using the black, is it completely burned and without reburn potential?
- Are safety guidelines and the Standard Firefighting Orders being followed and/or mitigated?
- Will you contain the fire before the next operational period?
- Have you reported the status of the fire to dispatch?
- Do you have a complete list of resources that have been ordered?
