

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, September 13, 2022 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Initial attack activity:	Light (39 fires)
New large incidents:	2
Large fires contained:	2
Uncontained large fires: **	28
Area Command teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	11
Type 2 IMTs committed:	14
***Complex IMTs committed:	0

***Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are 78 fires being managed under a strategy other than full suppression.

**Uncontained large fires include only fires being managed under a full suppression strategy.

Northwest Area (PL 4)

New fires:	2
New large incidents:	0
Uncontained large fires:	11
NIMOs committed:	1
Type 1 IMTs committed:	5
Type 2 IMTs committed:	5

Cedar Creek, Willamette NF, USFS. IMT 1 (AK Team 1). Transfer of command from IMT 2 (NW Team 6) to IMT1 (PNW Team 3) will occur today. Fifteen miles east of Oakridge, OR. Timber and closed timber litter. Moderate fire behavior with running, flanking and isolated torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Double Creek, Wallowa-Whitman NF, USFS. IMT 1 (PNW Team 2). IMT 1 (SA Blue Team) mobilizing. IMT is also managing the Sturgill, Nebo, and Goat Mountain Two fires. Ten miles southeast of Imnaha, OR. Timber and short grass. Active fire behavior with torching, flanking and backing. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Sturgill, Wallowa-Whitman NF, USFS. Fifteen miles southwest of Enterprise, OR. Timber and closed timber litter. Active fire behavior with isolated torching, flanking and backing. Residences threatened. Evacuations, area, road and trail closures in effect.

Nebo, Wallowa-Whitman NF, USFS. Twenty-one miles southeast of Enterprise, OR. Timber. Active fire behavior with group torching, flanking and backing. Area, road and trail closures in effect.

Goat Mountain Two, Wallowa-Whitman NF, USFS. Nine miles south of Lostine, OR. Timber. Moderate fire behavior with backing.

Bolt Creek, Northwest Region, DNR. IMT 2 (NW Team 8). Two miles north of Skykomish, WA. Timber and brush. Moderate fire behavior with backing and uphill runs. Numerous structures threatened. Evacuations, area, road and trail closures in effect.

Boulder Mountain, Northeast Region, DNR. IMT 2 (GB Team 7). Nine miles northwest of Cusick, WA. Timber and medium slash. Active fire behavior with spotting and torching. Structures threatened. Area, road and trail closures in effect.

Rum Creek, Medford District, BLM. IMT 2 (NR Team 6). Twelve miles northwest of Hugo, OR. Timber and closed timber litter. Minimal fire behavior with creeping, smoldering and backing. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Van Meter, Lakeview District, BLM. Transfer of command from IMT 1 (ODF Team 3) back to the local unit will occur on 9/15. Thirteen miles southeast of Klamath Falls, OR. Timber, brush and short grass. Minimal fire behavior with creeping and smoldering.

Chilliwack Complex (4 fires), North Cascades NP, NPS. NIMO (Team 2). IMT is also managing the NW Pasayten Complex. Thirty miles east of Maple Falls, WA. Timber. Minimal fire behavior. Structures threatened. Trail closures in effect. Precipitation occurred over the fire area yesterday.

NW Pasayten Complex (5 fires), Okanogan-Wenatchee NF, USFS. Twenty miles northeast of Diablo, WA. Timber. Minimal fire behavior. Structures threatened. Trail closures in effect. Precipitation occurred over the fire area yesterday.

Crockets Knob, Malheur NF, USFS. Nineteen miles north of Prairie City, OR. Brush, closed timber litter and timber. Minimal fire behavior with backing, creeping and smoldering. Structures threatened. Area, road and trail closures in effect.

White River, Okanogan-Wenatchee NF, USFS. Twenty-three miles northwest of Leavenworth, WA. Timber. Minimal fire behavior with backing and creeping. Numerous structures threatened. Area, road and trail closures in effect.

Irving Peak, Okanogan-Wenatchee NF, USFS. Twenty-six miles northwest of Leavenworth, WA. Timber. Moderate fire behavior with backing and creeping. Structures threatened. Area, road and trail closures in effect.

Minnow Ridge, Okanogan-Wenatchee NF, USFS. Twenty-five miles north of Leavenworth, WA. Timber. Moderate fire behavior with backing and creeping. Road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

Potter, Willamette NF, USFS. Forty-six miles southwest of La Pine, OR. Closed timber litter, timber and medium slash. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect.

Goat Rocks, Gifford Pinchot NF, USFS. IMT 2 (NW Team 10). Eight miles east of Packwood, WA. Timber. No new information.

Fairview, Riverside Unit, Cal fire. IMT 1 (Cal Fire Team 6). Seven miles southeast of Hemet, CA. Chaparral, brush and short grass. Minimal fire behavior with smoldering. Community of Hemet, numerous structures, communication and energy infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Radford, San Bernardino NF, USFS. IMT 2 (CA Team 11). Seven miles southwest of Big Bear, CA. Timber, chaparral and brush. Minimal fire behavior with creeping and smoldering. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Red, Yosemite NP, NPS. IMT 2 (CA Team 10). IMT is also managing the Rodgers fire. Nine miles southeast of Yosemite Valley, CA. Brush and timber. Moderate fire behavior with creeping, smoldering and single tree torching. Structures threatened. Trail closures in effect. Precipitation occurred over the fire area yesterday.

Rodgers, Yosemite NP, NPS. Thirty-five miles east of Groveland, CA. Brush and timber. Moderate fire behavior with smoldering, creeping and single tree torching. Trail closures in effect. Precipitation occurred over the fire area yesterday.

Fork, Merced-Mariposa Unit, Cal Fire. One mile south of North Fork, CA. Timber, tall grass and brush. Minimal fire behavior. Evacuations have been lifted.

Summit, Sequoia & Kings Canyon NP, NPS. Sixteen miles southeast of Three Rivers, CA. Timber. Moderate fire behavior with backing and creeping. Trail closures in effect. Precipitation occurred over the fire area yesterday.

Ten Year Average Fires (2012 – 2021 as of today)	43,027
Ten Year Average Acres (2012 – 2021 as of today)	5,979,262

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: An upper low will move into the Pacific Northwest, with enhanced westerly flow across the southern Cascades and northern Sierra. Elevated conditions are likely across northeast California into south-central Oregon due to westerly winds of 12-20 mph with gusts 20-30 mph amid relative humidity of 12-20%. Brisk east-southeasterly winds will develop across eastern Montana and North Dakota as well, but relative humidity will remain near or above 25%. Temperatures will cool closer to normal across the northern Intermountain West due to the incoming trough, but above normal temperatures are likely to continue across the Plains from South Dakota southward to Texas.

Isolated to scattered mainly wet thunderstorms will develop over the Great Basin and southwest Montana into the Colorado Rockies and Southwest. Rain with the thunderstorms is likely to be heaviest across southeast Nevada into central Utah and west-central New Mexico with potential flooding. Scattered wet thunderstorms are also possible across northern Washington from the Cascade Crest eastward. Showers and embedded thunderstorms are likely in the Northeast, while scattered thunderstorms are forecast for the Florida Peninsula as well.

Medical Incident Report

Fire Communication Category

The Medical Incident Report (MIR) can be found in the following documents: in the [NWCG Incident Response Pocket Guide \(IRPG\), PMS 461](#), under Emergency Medical Care (pink); in the Medical Plan [ICS-206 WF](#) <http://www.nwcg.gov/publications/ics-forms>; and in many Incident Action Plans (IAPs). The MIR evolved from and has replaced the 9 Line Form and pPink sticker.

The MIR is not always tasked to the Emergency Medical Technician (EMT) or Paramedic in Patient Care. The intent of the form is to:

1. establish control of the incident, whether routine or life-threatening, by initiating a new Incident Command System,
2. standardize a systematic process for reporting medical incidents/injuries, similar to a fire size-up for initial attack, and
3. enable any firefighter, with prior training and direction, to fill it out and transmit the information.

- Treat it like any incident. If the incident is overwhelming, ask for a more qualified Incident Commander (IC) to assume command. Expand/contract the organization's size depending on the needs of the incident.
- Fill this report out completely prior to transmitting to dispatch/communications. If the incident is life threatening, do not let documentation delay patient care.
- When transmitting the report, state the number and title of each section, and say "break" and pause between the sections (e.g., "Dispatch, Task Force Leader (TFLD) Jones. Standby for Priority Medical Incident Report. 1. All other radio traffic please hold, break" (pause/wait for response). "2. Incident Status: Nature of Illness is chest pain. Incident Name is Tank Medical. IC will be TFLD Jones. Patient Care will be Paramedic Smith. Break (pause again). 3. Initial Patient Assessment is...").
- When using the MIR during a Multi-Casualty Incident (MCI), state the number injured and their severity (Section 3: e.g., "3. Initial Patient Assessment, I have five patients. three Reds, one Yellow, and one Green. Mechanism of Injury is...").
- Use the terms Paramedic or EMT with the provider's last name in "Patient Care." Do not use EMT to describe a Paramedic or the ambiguous term Medic. All those roles need to be clearly identified to understand the level of care and treatment the patient(s) will receive.
- Enact more than one transport plan and clear more than one frequency if needed for Sections 5 and 6.
- Always be ready for the first plan to fail and be flexible enough to move into an alternate plan. Use the acronym PACE (Primary, Alternate, Contingency, and Emergency) for planning purposes.

Action Items:

Consider developing medical emergency tabletop scenarios as part of morning briefings or field scenarios on project work to be become familiar with the process. The more comfortable with the MIR you are, the more it will be second nature under stress.

Ensure dispatchers and radio operators are aware of their roles and responsibilities pertaining to the MIR.

Review your local unit emergency plans.

This topic was submitted by Assistant Fire Management Officer (AFMO) Miles Ellis and Asst. State Fire Management Officer (FMO) Paul Hohn with Wyoming Bureau of Land Management (BLM), and expanded upon by Eric Graff, of Grand Canyon Helitack.
