Nationally, there are 40 fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.

## Geographic Area daily reports

## Understanding the IMSR

Three incident management teams, five fire suppression crews, eight rappellers, 10 engines and 32 overhead personnel and are assigned to large fire support in Canada.

One MAFFS C-130 airtanker and support personnel from the $153^{\text {rd }}$ Airlift Wing (Wyoming Air National Guard) and one MAFFS unit from the $302^{\text {nd }}$ Airlift Wing (Colorado Air Force Reserve) have been Deployed to Klamath Falls, OR to support wildland fire operations nationally.

Active Incident Resource Summary

| GACC | Incidents | Cumulative Acres | Crews | Engines | Helicopters | Total Personnel | Change in Personnel |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Big Knife, Flathead Agency, BIA. CIMT (NR Team 3). CIMT is also managing the Niarada and Mill Pocket fires. Five miles east of Arlee, MT. Timber. Active fire behavior with torching, flanking and uphill runs. Numerous structures threatened. Road closures in effect.

Niarada, Flathead Agency, BIA. Twelve miles west of Elmo, MT. Grass and timber. Active fire behavior with uphill runs, torching and flanking. Numerous structures threatened. Trail closures in effect.

* Mill Pocket, Flathead Agency, BIA. Fifteen miles west of Elmo, MT. Grass and timber. Active fire behavior with flanking, backing and creeping.

Tin Soldier Complex (3 fires), Flathead NF, USFS. Seventeen miles west of Swan Lake, MT. Timber and medium slash. Active fire behavior with group torching, running and spotting. Numerous structures and communication infrastructure threatened. Evacuations, area and road closures in effect. Last narrative report unless significant activity occurs.

Colt, Southwestern Land Office, Montana DNR. CIMT (NR Team 1). CIMT (NR Team 5) mobilizing. Twelve miles northwest of Seeley Lake, MT. Timber. Active fire behavior with backing, single tree torching and short-range spotting. Structures threatened. Evacuations, area, road and trail closures in effect.

Middle Ridge, Flathead Agency, BIA. Fifteen miles west of Ronan, MT. Grass and brush. Moderate fire behavior with creeping, single tree torching and isolated torching. Structures and communication infrastructure threatened.

Ridge, Flathead NF, USFS. Six miles east of Hungry Horse, MT. Timber and brush. Active fire behavior with backing, single tree torching and flanking.

Communication Butte, Flathead Agency, BIA. Two miles north of Dixon, MT. Grass and brush. Minimal fire behavior with creeping and smoldering. Structures threatened.

Black Butte, North Central Montana District, BLM. Twenty miles east of Landusky, MT. Timber, grass and brush. Active fire behavior with group torching, running and backing. Energy infrastructure threatened. Reduction in acreage due to more accurate mapping.

Midnight, Nez Perce-Clearwater NF, USFS. Thirteen miles east of Grangeville, ID. Timber. Minimal fire behavior with creeping and smoldering. Residences threatened.

Consalus, Idaho Panhandle NF, USFS. Eight miles southwest of Lamb Creek, ID. Timber. Moderate fire behavior with isolated torching, creeping and backing. Residences threatened. Road closures in effect.

* East Fork, Kootenai NF, USFS. Twelve miles south of Trego, MT. Timber. Active fire behavior with backing, group torching and isolated torching.

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

## Predictive Services Discussion:

Hot temperatures above $100^{\circ} \mathrm{F}$ will continue across much of Texas, Oklahoma, and Lower Mississippi Valley. Southerly sustained winds $12-22 \mathrm{mph}$ will develop across much of central and north Texas into southern Oklahoma as well, and minimum relative humidity below $25 \%$ will remain widespread. Isolated to scattered mixed wet and dry thunderstorms will develop on the fringe of a monsoon moisture surge from northern California into central and eastern Oregon, central Idaho, and northwest Montana. Scattered to widespread wet thunderstorms will develop within the plume of moisture across the northern Great Basin into Wyoming and southern Montana. Breezy west winds will develop across southeast California into southern Nevada and much of Arizona ushering in much drier conditions, but isolated to scattered mixed wet and dry thunderstorms are likely across the greater Four Corners area into New Mexico. Scattered to thunderstorms are forecast across the central and northern Plains through the Mississippi Valley to the Great Lakes and Northeast. Severe thunderstorms are most likely in the central High Plains, with heavy rain and local flooding likely in the central High Plains and southern Appalachians. Above normal temperatures will continue for much of Alaska while isolated mixed wet and dry thunderstorms develop over the Copper Basin.
