Nationally, there are 59 fires being managed under a strategy other than full suppression.
**Uncontained large fires include only fires being managed under a full suppression strategy.

## Geographic Area daily reports

## Understanding the IMSR

The Federal Emergency Management Agency (FEMA) has activated Emergency Support Function 4 (ESF4) to assist with the wildfires burning in Hawaii.

Two incident management teams and three overhead personnel are assigned to large fire support in Canada.

One MAFFS C-130 airtanker and support personnel from the $153^{\text {rd }}$ Airlift Wing (Wyoming Air National Guard) and one MAFFS unit from the $302^{\text {nd }}$ Airlift Wing (Colorado Air Force Reserve) have been deployed to Klamath Falls, OR to support wildland fire operations nationally.

Active Incident Resource Summary

| GACC | Incidents | Cumulative Acres | Crews | Engines | Helicopters | Total Personnel | Change in Personnel |

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

## Predictive Services Discussion:

Hot, dry, and breezy conditions will develop ahead of a cold frontal passage across portions of New Mexico, Texas, and the lower Mississippi Valley. A mix of wet and dry thunderstorms will be found along and ahead of this cold front and impact portions of the Four Corner states as well as Texas and the lower Mississippi Valley. A mix of wet and dry thunderstorms will also affect large portions of California and Nevada although they will be slower moving with a nighttime thunderstorm threat across northwest California. The heat wave will strengthen across the Pacific Northwest and portions of northern California and provide a thermal trough induced critical fire weather pattern, especially across the Coastal and Cascade Ranges. Temperatures will moderate some across Alaska with continued scattered shower and thunderstorm activity. Heavier concentrations of wetting thunderstorms will be found across portions of the upper Great Lakes, mid-Atlantic and large portions of the Southeast.

## National Predictive Services Outlook

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Terrain and Fuels Make Escape to Safety Zones Difficult.
