#### Incident Management Situation Report Sunday, July 9, 2023 – 0730 MDT National Preparedness Level 2

#### **National Fire Activity:**

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (79 fires)
New large incidents:	0
Large fires contained:	4
Uncontained large fires: **	11
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	1
Complex IMTs committed:	2

Nationally, there are seven fires being managed under a strategy other than full suppression.

#### **Geographic Area Reports**

### **Understanding the IMSR**

Two incident management teams, eight fire suppression crews, 60 smokejumpers and 63 overhead personnel are assigned to large fire support in Canada.

#### **Active Incident Resource Summary**

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel
AICC	1	41	5	0	2	106	0
NWCC	4	2,836	20	59	4	893	-99

Fires (2013 – 2022 as of today)	28,968
<b>Acres</b> (2013 – 2022 as of today)	2,524,329

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

#### **Predictive Services Discussion:**

Dry and breezy conditions will overspread parts of southeast California, the southern Great Basin, northern Arizona, and into southwest Colorado. Isolated dry thunderstorms remain possible along and east of the Cascades in the Northwest, with isolated to scattered mixed wet and dry thunderstorms in southeast Arizona and southwest New Mexico. Hot and dry conditions will extend from central and south Texas into the Desert Southwest and from the West Slope into the northern Great Basin, Inland Northwest, and northern Rockies. Scattered to widespread thunderstorms are expected from the southern Plains through much of the Southeast extending north in the Appalachians through the Mid-Atlantic and into the Northeast. Showers and thunderstorms are also likely from eastern North Dakota into the western Great Lakes. Cooler and wetter conditions will continue across much of Alaska, especially the western half, while warmer and drier conditions are likely for far eastern Alaska into the Panhandle, with isolated thunderstorms possible in parts of the Interior and southern panhandle.

National Predictive Services Outlooks

#### 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Valley Fever.
