## Incident Management Situation Report <br> Monday, July 17, 2023 - 0730 MDT <br> National Preparedness Level 2

## National Fire Activity:

Fire Activity and Teams Assigned
Initial attack activity:
New large incidents:
Large fires contained:
Uncontained large fires: **
Area Command teams committed:
NIMOs committed:
Type 1 IMTs committed:
Type 2 IMTs committed:
Complex IMTs committed:

## Total

Light (115 fires)
2
3
15
0
0
0
2
0

Nationally, there are eight fires being managed under a strategy other than full suppression.
**Uncontained large fires only include fires being managed under a full suppression strategy.

## Geographic Area Reports

## Understanding the IMSR

Six incident management teams, 11 fire suppression crews, 30 smokejumpers, 12 rappellers and 59 overhead personnel and are assigned to large fire support in Canada.

Active Incident Resource Summary

| GACC | Incidents | Cumulative Acres | Crews | Engines | Helicopters | Total Personnel | Change in Personnel |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| AICC | 1 | 42 | 5 | 0 | 2 | 109 | 0 |

Southwest Area (PL 3)
Fire Activity and Teams Assigned
New fires:
New large incidents:
Total
20 1
Uncontained large fires:

Campbell, Apache-Sitgreaves NF, USFS. Six miles southwest of Alpine, AZ. Timber. Minimal fire behavior with backing, creeping and smoldering.

Prevost, Socorro District, New Mexico State Forestry. Six miles south of White Signal, NM. Brush and grass. Minimal fire behavior.

Pilot, Northwest District, Arizona DOF. Twenty miles east of Wikieup, AZ. Grass and brush. Minimal fire behavior with backing, creeping and smoldering.

Homestead, Coronado NF, USFS. Seventeen miles north of Wilcox, AZ. Grass and brush. Minimal fire behavior with smoldering.

Jackson, Socorro District, New Mexico State Forestry. Started on BLM land 12 miles northeast of Lordsburg, NM. Brush and short grass. Minimal fire behavior.

Bull Pen, San Carlos Agency, BIA. Twenty miles northeast of Globe, AZ. Grass, brush and timber. No new information.

* Cutoff Ridge, Guadalupe Mountains NP, NPS. Eighteen miles northeast of Queen, NM. Grass and brush. Minimal fire behavior with creeping. Area closures in effect. Last narrative report unless significant activity occurs.

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

## Predictive Services Discussion:

Well above normal temperatures will continue across much of the West with low afternoon low relative humidity below $20 \%$ except west of the Cascades where onshore flow will result in higher humidity. Isolated dry thunderstorms will continue in the morning across portions of northwest Nevada, central Idaho, and western Montana, becoming scattered in the afternoon across northern Nevada into southern Idaho and southwest Montana. Breezy westerly winds will also develop across in the Inland Northwest and Great Basin creating elevated fire weather conditions as well. Isolated dry thunderstorms are possible this afternoon across central Arizona into western New Mexico with wet thunderstorms possible across far southern Arizona. Isolated thunderstorms will also develop across much of the Plains, with more numerous thunderstorms, likely severe, across portions of South Dakota and Nebraska. Texas will continue to be hot, dry, and breezy, while isolated to scattered thunderstorms are likely for much of the eastern US east of the Mississippi River. Eastern Interior Alaska will be warm with scattered thunderstorms while the rest of Alaska is drier but cool.

## National Predictive Services Outlooks

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Battlement Creek Fire.
