

**Incident Management Situation Report
Wednesday, July 19, 2023 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (126 fires)
New large incidents:	1
Large fires contained:	1
Uncontained large fires: **	15
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	2
Complex IMTs committed:	0

Nationally, there are nine fires being managed under a strategy other than full suppression.

**Uncontained large fires only include fires being managed under a full suppression strategy.

[Geographic Area Reports](#)

[Understanding the IMSR](#)

Seven incident management teams, 16 fire suppression crews, 30 smokejumpers, 21 rappellers, 10 engines and 80 overhead personnel and are assigned to large fire support in Canada.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

Southwest Area (PL 3)

Fire Activity and Teams Assigned	Total
New fires:	20
New large incidents:	1
Uncontained large fires:	6

Campbell, Apache-Sitgreaves NF, USFS. Six miles southwest of Alpine, AZ. Timber. Minimal fire behavior with smoldering and creeping.

Floridas, Las Cruces District, BLM. Eight miles southeast of Sunshine, NM. Brush and grass. No new information.

Pilot, Northwest District, Arizona DOF. Twenty miles east of Wikieup, AZ. Grass and brush. No new information.

Bull Pen, San Carlos Agency, BIA. Twenty miles northeast of Globe, AZ. Grass, brush and timber. No new information.

Prevost, Socorro District, New Mexico State Forestry. Six miles south of White Signal, NM. Brush and grass. No new information. Last report unless new information is received.

Jackson, Socorro District, New Mexico State Forestry. Started on BLM land 12 miles northeast of Lordsburg, NM. Brush and grass. No new information. Last report unless new information is received.

* **Divide**, Gila NF, USFS. Twenty-five miles southeast of Reserve, NM. Timber, grass and brush. Minimal fire behavior with flanking and backing and creeping. Last narrative report unless significant activity occurs.

Fires (2013 – 2022 as of today)	31,042
Acres (2013 – 2022 as of today)	3,166,042

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Very hot temperatures will continue across southern California and the Southwest with temperatures up to 120°F, and above normal temperatures across the northern Intermountain West, Texas, and Southeast as well. Isolated to scattered mixed wet and dry thunderstorms will develop across the central Great Basin, West Slope, southeast Arizona, and much of New Mexico. Breezy south winds in Texas will continue to create areas of locally elevated fire weather conditions. Breezy and dry west winds are forecast to develop along the east slopes of the Sierra as well. Scattered to numerous showers and thunderstorms, some severe, will develop along and ahead of a cold front from the Front Range into the Upper Midwest and northern Great Lakes, while more showers and thunderstorms are expected for the Ohio and Tennessee Valleys and Mid-Atlantic. Warm temperatures are forecast for much of Interior Alaska, with numerous showers and isolated thunderstorms developing over the eastern Interior and south-central Alaska.
