## Predictive Services Discussion:

Isolated to widespread mixed wet and dry thunderstorms are expected across much of Arizona, New Mexico, and into portions of the central Great Basin, Colorado, and southeast California. Some of the thunderstorms will likely have strong to severe outflow winds, with haboobs possible where thunderstorms drift off the higher terrain into the lower elevation deserts. Hot, dry, unstable, and occasionally breezy conditions will continue across parts of Texas and much of the West, especially along and east of the Cascades and Sierra into central Idaho. Scattered to widespread thunderstorms are expected across much of the Southeast and New England, while showers and thunderstorms are likely for the Upper Midwest into the western Great Lakes. Cooler temperatures will expand through Oklahoma into north Texas and eastward into the Lower Mississippi Valley and southern and central Appalachians. Warm and dry conditions will continue for the Interior, with isolated thunderstorms forecast from the eastern Interior into the Copper River Basin.

National Predictive Services Outlooks

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Cramer Fire.

[^0]:    * Black Mesa, Las Vegas District, NM State Forestry. Five miles east of Ojo Feliz, NM. Grass. Minimal fire behavior with smoldering and creeping.

    Chimney, Coronado NF, USFS. Seven miles northwest of Redington, AZ. Brush and grass. Minimal fire behavior with creeping and smoldering.
