Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

## Predictive Services Discussion:

Isolated to scattered mixed wet and dry thunderstorms are expected from the Southwest and southern California through the Four Corners, central Great Basin, central Rockies, and into the northern Rockies. Gusty outflow winds will accompany some of these thunderstorms. Elevated to critical fire weather conditions will develop across the western and northern Great Basin and Inland Northwest through the northern Rockies due to west-southwest sustained winds of $15-25 \mathrm{mph}$ gusting $30-40 \mathrm{mph}$ amid minimum relative humidity of $5-20 \%$. Showers are expected across western Washington and northwest Oregon amid onshore flow. Well above normal temperatures will continue for much of the West, especially the Intermountain West and southern California, and across much of the Plains, Texas, and into the Midwest. Thunderstorms are likely along the Gulf and East Coasts, with scattered thunderstorms and showers over the Midwest and Great Lakes. Above normal temperatures and scattered to widespread thunderstorms will continue over much of the Alaska Interior.

National Predictive Services Outlooks

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is NFDRS PocketCards

[^0]:    * Round Hill, Buenos Aires NWR, FWS. Ten miles northeast of Sasabe, AZ. Brush and grass. Active fire behavior with running, flanking and backing.
    * Grapevine, Prescott NF, USFS. Eight miles east of Prescott Valley, AZ. Timber and brush. Active fire behavior with wind-driven runs and group torching. Area, road and trail closures in effect.
    * Gallineta, Southeast District, Arizona DOF. Sixteen miles west of Arivaca, AZ. Brush and grass. Moderate fire behavior with wind-driven runs, backing and creeping. Residences threatened.
