#### Incident Management Situation Report Thursday, June 1, 2023 – 0730 MDT National Preparedness Level 2

# **National Fire Activity:**

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (138 fires)
New large incidents:	4
Large fires contained:	2
Uncontained large fires: **	5
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0
Complex IMTs committed:	0

Nationally, there are three fires being managed under a strategy other than full suppression. \*\*Uncontained large fires only include fires being managed under a full suppression strategy.

# **Geographic Area daily reports**

# Understanding the IMSR

Seventeen fire suppression crews, three incident management teams and thirty-three overhead personnel have been assigned to large fires in Alberta, Canada.

# This report will post Monday – Friday at 0730 Mountain time unless significant activity occurs.

# Predictive Services Discussion:

Record high temperatures and very low relative humidity of 10-25% are forecast in the Northeast today with moderate significant fire potential. Well above normal temperatures will extend westward through the Great Lakes but relative humidity will be higher with isolated to scattered afternoon thunderstorms forecast for the western Great Lakes and Minnesota. Dry and locally breezy conditions will continue over the Southwest with the elevated fire weather conditions most likely across southern New Mexico. Scattered showers and thunderstorms will develop from the Sierra through the Great Basin into the central and northern Rockies onto the Plains. Severe thunderstorms are most likely across the southern High Plains with areas of heavy rainfall and potential flash flooding across central Montana and the Texas Panhandle. Scattered to numerous showers and thunderstorms will develop over the Florida while below normal temperatures and showery conditions continue in Alaska.

National Predictive Services Outlooks

# 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Fuel Handling
