Incident Management Situation Report Thursday, June 8, 2023 – 0730 MDT National Preparedness Level 2

National Fire Activity:

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (117 fires)
New large incidents:	2
Large fires contained:	1
Uncontained large fires: **	5
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0
Complex IMTs committed:	0

Nationally, there are three fires being managed under a strategy other than full suppression.

Geographic Area daily reports

Understanding the IMSR

Fourteen fire suppression crews, one incident management team and twelve overhead personnel have been assigned to large fires in Alberta, Canada.

This report will post Monday – Friday at 0730 Mountain time unless significant activity occurs.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel
AICC	1	310	0	0	0	0	0

Fires (2013 – 2022 as of today)	22,824
Acres (2013 – 2022 as of today)	1,106,396

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Dry and breezy post-frontal conditions are expected across the western and northern Great Lakes into the Mid-Atlantic, Midwest, and Southeast, and smoke will continue to move south from Canada into the Great Lakes, Midwest, Northeast, and Mid-Atlantic. Mostly scattered thunderstorms and showers will develop from the Sierra and northern California through the central and northern Great Basin into the Inland Northwest. Much of the central and northern Rockies onto the Plains will have showers and thunderstorms develop, including potentially heavy rain and severe thunderstorms from the northern Rockies onto the northern Plains. Isolated to scattered showers and thunderstorms are likely along and ahead of a cold front from central Texas through the Deep South to the southeast Atlantic Coast and Florida. Warm, dry, and occasional breezy conditions will continue in parts of the Interior, with thunderstorms possible in parts of the Interior into the Brooks Range.

National Predictive Services Outlooks

6 Minutes for Safety:
