

**Incident Management Situation Report
Friday, June 30, 2023 – 0730 MDT
National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Total
Initial attack activity:	Light (74 fires)
New large incidents:	4
Large fires contained:	2
Uncontained large fires: **	10
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	0
Type 2 IMTs committed:	0
Complex IMTs committed:	3

Nationally, there are six fires being managed under a strategy other than full suppression.

**Uncontained large fires only include fires being managed under a full suppression strategy.

Geographic Area Reports

Understanding the IMSR

Six incident management teams, 19 fire suppression crews, 60 smokejumpers and 30 overhead personnel are assigned to large fire support in Canada.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel
AICC	0	0	0	0	0	0	0
NWCC	3	1,527	6	22	4	219	80

SACC	4	17,453	0	10	0	70	-6
Total	26	97,233	50	135	26	2,177	132

Rocky Mountain Area (PL 2)

Fire Activity and Teams Assigned	Total
New fires:	4
New large incidents:	3
Uncontained large fires:	5
Complex IMT's Committed:	3

* **Titan**, Las Animas County. CIMT (RM Team 1). Eleven miles northwest of Trinidad, CO. Timber. Active fire behavior. Structures threatened. Evacuations in effect.

Spring Creek, Garfield County. CIMT (RM Team 2). Four miles southwest of Parachute, CO. Brush, grass and timber. Active fire behavior with flanking, backing and creeping. Residences and energy infrastructure threatened. Area closures in effect.

Chris Mountain, San Juan NF, USFS. CIMT (RM Team 3). Six miles northwest of Pagosa Springs, CO. Timber and brush. Active fire behavior with short crown runs and group torching. Structures threatened. Area, road and trail closures in effect.

* **Arkansas Loop**, Southern Ute Agency, BIA. Twelve miles west of Tiffany, CO. Timber and brush. Moderate fire behavior with crowning and single tree torching. Structures threatened.

* **Coal Mine**, Archuleta County. Eighteen miles south of Pagosa Springs, CO. Timber and brush. Extreme fire behavior with group torching, flanking and backing. Residences threatened.

Southwest Area (PL 3)

Fire Activity and Teams Assigned	Total
New fires:	11
New large incidents:	0
Uncontained large fires:	3

Diamond, Central District, Arizona DOF. One mile east of Scottsdale, AZ. Grass and brush. Minimal fire behavior with smoldering. Numerous structures threatened. Area and trail closures in effect.

Sunset North, Captain District, New Mexico State Forestry. Thirty miles west of Roswell, NM. Grass and brush. Minimal fire behavior. Structures threatened.

Rico, Las Cruces Field Office, BLM. One mile north of Pinos Altos, NM. Light slash and timber. Minimal fire behavior.

Ridge, Kaibab NF, USFS. Previously reported incident. Eight miles southeast of Tusayan, AZ. Timber. Moderate fire behavior with backing and flanking. Structures threatened. Last narrative report unless significant activity occurs.

Ten Year Average	Total
Fires (2013 – 2022 as of today)	26,684
Acres (2013 – 2022 as of today)	1,916,909

Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Well above normal temperatures will continue in the ArkLaTex into the Ozarks, Lower/Mid-Mississippi Valley, and parts of the Southeast, with gusty winds overlapping lower relative humidity across Texas into Oklahoma. Isolated dry thunderstorms are likely in parts of southwest Texas. Thermal troughing will extend from the Desert Southwest through the Central Valley into far southwest Oregon and parts of the Inland Northwest leading hot, dry, and unstable conditions. Gusty Cascade gap winds are expected to overlap lower relative humidity on the eastern slopes of the Cascades into the Columbia Basin. Isolated to scattered mixed wet and dry thunderstorms are forecast in the central Rockies, including west of the Divide in Colorado. Wetter and more widespread thunderstorms are expected from southeast Wyoming south through the Front Range and southern High Plains and east across the Central Plains, Mid-Mississippi Valley, and into the southern Appalachians, including severe thunderstorms. Isolated to scattered showers and thunderstorms are likely in parts of the Great Lakes into the Northeast and Mid-Atlantic
