

**Incident Management Situation Report  
Friday, April 18, 2025 – 0730 MDT  
National Preparedness Level 1**

**National Fire Activity (April 11, 2025 – April 17, 2025):**

<b>Fire Activity and Teams Assigned</b>	<b>Totals</b>
Initial attack activity:	Light (926 fires)
New large incidents:	31
Large fires contained:	19
Uncontained large fires:	13
CIMTs committed:	0
Type 1 IMTs committed:	0
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

## Southern Area (PL 2)

### Fire Activity and Teams Assigned

### Totals

New fires:	424
New large incidents:	24
Uncontained large fires:	11

\* **Bee Rock Creek**, North Carolina Forest Service. Nine miles northwest of Marion, NC. Hardwood litter and timber. Moderate fire behavior with flanking and uphill runs. Structures threatened. Evacuations in effect.

\* **HAOE Lead**, National Forests in North Carolina, USFS. Eight miles northwest of Robbinsville, NC. Hardwood litter and light slash. Moderate fire behavior with backing, flanking and creeping. Area and trail closures in effect.

\* **Buck Creek**, Oklahoma DOF. Seven miles west of Dunbar, OK. Hardwood litter. Active fire behavior with running and single tree torching. Structures threatened.

\* **Deep Creek**, Florida Forest Service. Two miles east of Lake Helen, FL. Timber and southern rough. Active fire behavior with short-range spotting and running.

\* **Juniper Swamp**, National Forests in Florida, USFS. Nine miles south of Bristol, FL. Timber and southern rough. Moderate fire behavior with running, flanking and backing.

\* **Hilliardville**, National Forests in Florida, USFS. Six miles northwest of Crawfordville, FL. Southern rough and timber. Minimal fire behavior with smoldering.

\* **Last Chance**, Tahlequah Field Office, BIA. Five miles east of Kenwood, OK. Timber. Moderate fire behavior with backing and flanking.

\* **Picker Flats**, Oklahoma DOF. Ten miles northeast of Tahlequah, OK. Timber. Moderate fire behavior.

\* **South Carter Cove**, North Carolina Forest Service. Four miles southwest of Hayesville, NC. Hardwood litter. Moderate fire behavior with creeping.

\* **Sawmill Road**, Alabama Forestry Commission. Five miles southwest of Chatom, AL. Brush. Minimal fire behavior.

\* **Frolona Rd**, Georgia Forestry Commission. Two miles northwest of Franklin, GA. Timber. Moderate fire behavior.

<b>Ten Year Average</b>	<b>Quantity</b>
<b>Fires (2015 – 2024 as of today)</b>	<b>13,116</b>
<b>Acres (2015 – 2024 as of today)</b>	<b>827,522</b>

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

## **Predictive Services Discussion:**

Windy and dry conditions are expected in much of southern and eastern New Mexico today into West Texas creating elevated to critical conditions ahead of a cold front. This cold front will also bring rain, with snow above 7,000 feet, to the central and southern Rockies today into tomorrow. As the front moves into the Plains, widespread showers and thunderstorms will develop from central Texas and Oklahoma into the Mid-Mississippi and Ohio Valleys. In the Southeast, minimum relative humidity is expected to remain low at 15-35% through the weekend. In addition, breezy and dry southerly winds will develop in Florida to the central Appalachians creating elevated fire weather conditions. As the Plains cold front moves through the Appalachians and Southeast early next week, moisture will become more limited with only scattered light rain expected from the Appalachians to the coast, with a period of dry and breezy northwesterly winds possible behind the front. A couple weak cold fronts will move through the northwestern US into the Midwest early to mid-next week with light to moderate precipitation and locally gusty winds. Windy and dry periods may also return to the Southwest the latter half of next week. Meanwhile, moist southerly return flow is expected in the southern Plains with widespread showers and thunderstorms possible for much of Oklahoma and Texas mid to late next week.
