

Incident Management Situation Report
Saturday, August 2, 2025 – 0730 MDT
National Preparedness Level 3

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Moderate (227 fires)
New large incidents:	8
Large fires contained:	2
Uncontained large fires:	37
CIMTs committed:	9
NIMOs committed:	1

Nationally, there are three fires being managed under a strategy other than full suppression. Zero fires are in Alaska. Three fires are in the Lower 48.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

Predictive Services Discussion:

Isolated mixed wet/dry thunderstorms are possible across the inland Pacific Northwest at first, with storms remaining isolated but extending into northern California, the northern Great Basin, and Montana during the afternoon. Scattered mixed wet/dry thunderstorms are expected across the Rockies extending south to southeast Arizona.

Very dry conditions with minimum relative humidity of 4-15% and poor overnight recovery will continue across much of Utah, Nevada, Arizona, as well as inland California and southern Idaho. Elevated conditions will persist across southeast Nevada to southern/western Utah, northern Arizona, western Colorado, and southeast Wyoming with southwesterly winds of 15-25 mph and gusts of 25-35 mph.

Monsoon moisture lies over much of eastern and southern New Mexico, extending east of the Divide where isolated to scattered wet thunderstorms are forecast. Isolated dry thunderstorms will remain possible on the western fringe of the moisture from southeastern Arizona to the West Slope. Scattered showers and thunderstorms are expected across the Great Plains. Scattered showers and thunderstorms will continue across the south and east.
