

**Incident Management Situation Report**  
**Tuesday, August 5, 2025 – 0730 MDT**  
**National Preparedness Level 4**

**National Fire Activity:**

<b>Fire Activity and Teams Assigned</b>	<b>Totals</b>
Initial attack activity:	Light (134 fires)
New large incidents:	8
Large fires contained:	2
Uncontained large fires:	35
CIMTs committed:	10
NIMOs committed:	0

Nationally, there are six fires being managed under a strategy other than full suppression. One fire is in Alaska. Five fires are in the Lower 48.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

**[Understanding the IMSR](#)**

**[IMSR Map](#)**

**Great Basin Area (PL 3)****Fire Activity and Teams Assigned****Totals**

New fires:	25
New large incidents:	0
Uncontained large fires:	6
CIMTs committed:	1

**Jakes**, Elko District, BLM. Includes the acreage from the previously reported Snowstorm incident. Two miles southwest of Midas, NV. Grass and brush. Extreme fire behavior with running, uphill runs and wind-driven runs. Community of Midas, communication infrastructure and sage-grouse habitat threatened.

**MP 22**, Elko District, BLM. Six miles southwest of Midas, NV. Grass and brush. Minimal fire behavior with creeping and smoldering. Residences and sage-grouse habitat threatened. Reduction in acreage due to more accurate mapping.

**Monroe Canyon**, Fishlake NF, USFS. CIMT (GB Team 5). Three miles east of Monroe, UT. Brush, timber and heavy slash. Active fire behavior with wind-driven runs, flanking and torching. Several communities, energy and communication infrastructure threatened. Evacuations, area, road and trail closures in effect. Sage-grouse habitat threatened.

**Adobe Mountain**, Elko District, BLM. Thirty-eight miles north of Elko, NV. Grass and brush. Active fire behavior with wind-driven runs, flanking and backing. Structures and sage-grouse habitat threatened.

**Deer Creek**, Southeast Area, Utah DOF. One mile north of Old La Sal, UT. Chaparral, timber and brush. Minimal fire behavior with smoldering, creeping and isolated torching. Area, road and trail closures in effect.

**Mill**, Idaho Falls District, BLM. Four miles south of Patterson, ID. Brush, grass and timber. Minimal fire behavior with smoldering.

## **Predictive Services Discussion:**

Hot, dry, and breezy southwesterlies develop across the Great Basin to the West Slope, including areas of northern Arizona, southern Idaho, and western Wyoming. Southwest winds of 15-25 mph with gusts 25-40 mph, minimum relative humidity of 3-15%, and poor overnight recovery, and elevated fire weather conditions are expected across most of those parts, with critical conditions across Utah, northwest Colorado, and southeast Wyoming. Extreme heat continues to build over parts of the southwest.

Isolated mixed wet/dry, thunderstorms are possible across parts of eastern Idaho as well as Montana and Wyoming, mostly during the morning. Monsoon moisture lies mostly east of The Divide, where isolated to scattered wet thunderstorms are forecast. Scattered showers and thunderstorms are expected across the Great Plains. Scattered showers and thunderstorms will continue across the south and southeast.

## **[National Predictive Services Outlook](#)**

### **6 Minutes for Safety:**

The 6 Minutes for Safety topic of the day is [Mann Gulch \(Montana\) - August 5, 1949](#).
