

Incident Management Situation Report
Thursday, July 24, 2025 – 0730 MDT
National Preparedness Level 4

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (85 fires)
New large incidents:	2
Large fires contained:	1
Uncontained large fires:	33
CIMTs committed:	19
NIMOs committed:	1

Nationally, there are 38 fires being managed under a strategy other than full suppression. 36 fires are in Alaska. Two fires are in the Lower 48.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

Understanding the IMSR

IMSR Map

Two MAFFS C-130 airtankers and support personnel have been deployed to Klamath Falls, OR to support wildland fire operations nationally. Respective units are from the 302nd Air Wing (Peterson Space Force Base, CO) and 146th Airlift Wing (CA Air National Guard).

Active Incident Resource Summary

New fires:	15
New large incidents:	0
Uncontained large fires:	10
CIMTs committed:	6
NIMOs committed:	1

Burdoin, Southeast Region, Washington DNR. CIMT (NW Team 13). Five miles west of Lyle, WA. Timber and grass. Moderate fire behavior with flanking, backing and uphill runs. Numerous structures and energy infrastructure threatened. Evacuations, area and road closures in effect.

Lake Spokane, Northeast Region, Washington DNR. CIMT (NW Team 2). Started on private land 12 miles northwest of Spokane, WA. Timber and brush. Moderate fire behavior with backing and flanking. Numerous structures and communication infrastructure threatened. Evacuations and road closures in effect.

Butte Creek, Warm Springs Agency, BIA. CIMT (NW Team 3). CIMT is also managing the Cram incident. Five miles northeast of Simnasho, OR. Grass, timber and brush. Minimal fire behavior with creeping and smoldering. Structures threatened. Evacuations, area and road closures in effect.

Cram, Prineville District, BLM. Started on private land 15 miles north of Madras, OR. Short grass, timber and brush. Minimal fire behavior with creeping and smoldering. Numerous structures and energy infrastructure threatened. Evacuations and road closures in effect.

Pomas, Okanogan-Wenatchee NF, USFS. Transfer of command from CIMT (NW Team 12) to CIMT (NW Team 10) will occur today. Thirty-six miles northwest of Entiat, WA. Timber and grass. Moderate fire behavior with backing, creeping and isolated torching. Area, road and trail closures in effect.

Hope, Northeast Region, Washington DNR. Transfer of command from CIMT (NW Team 8) back to the local unit will occur today. Started on private land 15 miles north of Kettle Falls, WA. Timber, closed timber litter and brush. Minimal fire behavior with smoldering, creeping and single-tree torching. Area, road and trail closures in effect. Reduction in acreage due to more accurate mapping.

Bear Gulch, Olympic NF, USFS. NIMO. Ten miles northwest of Hoodspport, WA. Timber. Active fire behavior with isolated torching. Area, road and trail closures in effect.

Board Shanty, Grants Pass Unit, Oregon DOF. One mile south of Grants Pass, OR. Timber and brush. No new information.

Hagelstein, Klamath Unit, Oregon DOF. Four miles southeast of Modoc Point, OR. Timber, light slash and brush. Minimal fire behavior with smoldering. Area and road closures in effect.

Elk, Klamath Unit, Oregon DOF. Seven miles southwest of Beatty, OR. Timber and closed timber litter. Minimal fire behavior with smoldering. Area and road closures in effect.

TOTAL ACRES:		117,895	1,009,117	31,180	33,738	1,415,612	377,614	2,985,155

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	32,686
Acres (2015 – 2024 as of today)	3,463,772

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

An overall escalation in fire activity is expected today. Thunderstorm chances will increase substantially over parts of the West as a cut-off low pressure system offshore approaches California. A warming and drying trend will otherwise continue throughout the Intermountain West, while monsoonal thunderstorms will be most prolific along and east of the Divide from Wyoming to New Mexico. Heavy rain and a few severe storms will continue from the Central Plains to the Great Lakes, in addition to the coastal Southeast.

Mixed wet/dry storms will quickly increase this afternoon from the Sierra into higher elevations across all of northern California and southern Oregon, extending into northern Nevada/Utah and southern Idaho. Slow storm motions will result in some locally heavy rain, but abundant lightning and erratic outflow winds can be expected, and storms will be drier with inland extent. Isolated dry thunderstorms may redevelop tonight in northern California, while isolated dry thunderstorms will be possible on the western fringes of monsoonal moisture to include western Wyoming, Colorado, and New Mexico this afternoon, as well.

Areas of elevated fire weather are possible elsewhere in the Great Basin and Desert Southwest, where it will be locally breezy with humidity as low as 3-8% after poorer morning recoveries. Established large fires from southern Nevada into the Four Corners states are expected to respond to the drying fire environment, and holdovers from recent thunderstorm activity may emerge. In the Northwest, westerly Cascade gap winds will increase, gusting as high as 30-45 mph amid humidity as low as 15-25%. Significant impacts are possible to the Burdoin Fire in the Gorge as elevated to briefly critical fire weather returns.
