

Incident Management Situation Report
Tuesday, June 3, 2025 – 0730 MDT
National Preparedness Level 2

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (80 fires)
New large incidents:	2
Large fires contained:	0
Uncontained large fires:	8
CIMTs committed:	0
Type 1 IMTs committed:	0
NIMOs committed:	1

Nationally, there is one fire being managed under a strategy other than full suppression.
 Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

One U.S. Forest Service contracted large airtanker and two overhead personnel have been assigned to large fires in Canada.

This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.

Active Incident Resource Summary

TOTAL ACRES:		101,339	12,196	39,809	20,807	848,963	133,697	1,156,811

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	21,592
Acres (2015 – 2024 as of today)	1,178,765

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Locally breezy north winds will continue in the Sacramento Valley of California and across the northern Great Basin, with minimum relative humidity as low as 10%. Temperatures will remain above normal in California but will be a few degrees below normal in the northern Intermountain West. Scattered showers and thunderstorms will develop across southeast California into the Four Corners today, with more isolated thunderstorm east of the Divide in Colorado and New Mexico. A cold front will move through the central and southern Plains and Midwest with showers and thunderstorms, with thunderstorms most likely to be severe in the Plains. Drier conditions will continue across the Appalachians and East Coast today, but scattered showers and thunderstorms will continue to bring locally heavy rain to the southern half of Florida. Locally breezy southerly winds will occur in the southern Interior off the Alaska Range, with showers continuing in southern Alaska and a few showers will spread into the Interior, as well.
