

Incident Management Situation Report
Saturday, June 21, 2025 – 0730 MDT
National Preparedness Level 3

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (83 fires)
New large incidents:	8
Large fires contained:	0
Uncontained large fires:	19
CIMTs committed:	7
NIMOs committed:	0

Nationally, there are 15 fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

Three incident management teams, 19 fire suppression crews and 96 overhead personnel are assigned to large fire support in Canada.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

Total	45	181,731	163	354	64	6,586	954

Southwest Area (PL 3)

Fire Activity and Teams Assigned	Totals
New fires:	2
New large incidents:	0
Uncontained large fires:	3
CIMTs Committed:	3

Trout, Gila NF, USFS. CIMT (SW Team 4). Twelve miles north of Silver City, NM. Grass, brush and timber. Active fire behavior with spotting, short crown runs and flanking. Several communities and communication infrastructure threatened. Evacuations, area, road and trail closures in effect.

Seven Springs, Mescalero Agency, BIA. CIMT (SW Team 1). Five miles southeast of Mescalero, NM. Grass, hardwood litter and timber. Minimal fire behavior with backing, creeping and smoldering. Area, road and trail closures in effect.

Buck, Socorro Field Office, BLM. Thirty-three miles southeast of Reserve, NM. Grass and timber. Moderate fire behavior with flanking and backing. Structures and energy infrastructure threatened. Road and trail closures in effect.

Bridge Creek, Navajo Region, BIA. CIMT (SW Team 2) mobilizing. Team Fifty-five miles northwest of Page, AZ. Timber and brush. Active fire behavior with backing, creeping and single tree torching. Structures threatened.

Alaska Area (PL 3)

Fire Activity and Teams Assigned

Totals

New fires:	0
New large incidents:	6
Uncontained large fires:	5

* **Bear Creek**, Fairbanks Area, Alaska DOF. Started on private property 14 miles northwest of Healy, AK. Timber. Extreme fire behavior with flanking and running. Structures threatened. Evacuations in effect.

* **Aggie Creek**, Fairbanks Area, Alaska DOF. Started on state land 23 miles northwest of Fairbanks, AK. Timber. Active fire behavior with running and torching. Residences threatened.

* **Bonanza Creek**, Fairbanks Area, Alaska DOF. Started on state land 22 miles southwest of Fairbanks, AK. Timber. Active fire behavior with spotting.

* **Nelchina Glacier**, Valdez-Copper River Area, Alaska DOF. One hundred twenty-eight miles north of Copper River, AK. Timber. Active fire behavior with torching and group torching.

Oskawalik, Southwest Area, Alaska DOF. Nine miles south of Crooked Creek, AK. Timber. Minimal fire behavior. Residences threatened.

Kechumstuk Creek, Tok Area, Alaska DOF. Started on BLM 47 miles northeast of Tok, AK. Timber. Active fire behavior with running and wind-driven runs. Residences threatened. Last narrative report unless significant activity occurs.

* **Twelve Mile Lake**, Delta Area, Alaska DOF. Thirty-seven miles southeast of Delta Junction, AK. Timber. Extreme fire behavior with spotting and crowning.

* **Bonnifield Creek**, Fairbanks Area, Alaska DOF. Thirty-three miles southwest of Salcha, AK. Timber and grass. Active fire behavior with crowning. Last narrative report unless significant activity occurs.

TOTAL ACRES:		105,500	52,622	23,619	21,133	997,029	161,175	1,361,079

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	24,679
Acres (2015 – 2024 as of today)	1,603,841

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

The Eastern United States will continue to experience well above normal temperatures today, with highs near or above 90°F forecast for nearly all areas east of the Divide. In the West, a low-pressure trough is causing temperatures to be unseasonably cool: areas of the Northwest are expecting high temperatures in the 60s or below. Scattered showers thunderstorms will move across the Northwest through Montana where elevations above 6,000 ft may receive snow. Prefrontal, southwest winds will form ahead of the trough over the Southwest, eastern Great Basin, Southwestern Wyoming and the West Slopes of Colorado. Relative humidity is also expected to be low in these areas, creating elevated to critical fire weather conditions. Similar conditions are anticipated in the California Central Valley, where north winds will be 15-20 mph. Isolated to scattered thunderstorms are also forecast for southeastern New Mexico and the Gulf Coast with more widespread, potential severe thunderstorms over the Great Lakes into the Northern Atlantic. Above normal temperatures will persist across Alaska and scattered wet and dry thunderstorms are expected in the northeast Interior this afternoon.
