

Incident Management Situation Report
Thursday, May 22, 2025 – 0730 MDT
National Preparedness Level 2

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (83 fires)
New large incidents:	3
Large fires contained:	0
Uncontained large fires:	8
CIMTs committed:	3
Type 1 IMTs committed:	0
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression.
Uncontained large fires include only fires being managed under a full suppression strategy.

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted Monday - Friday at 0730 Mountain Time unless significant activity occurs.

Active Incident Resource Summary

GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel	Change in Personnel

TOTAL ACRES:		100,867	5,752	39,221	10,411	835,275	128,468	1,119,994

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	19,431
Acres (2015 – 2024 as of today)	1,098,525

Cumulative acres showing in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Very dry conditions with minimum relative humidity of 3-12% will continue across the Mojave Desert into the southern Great Basin, Southwest, and California Central Valley, with poor overnight recovery of 10-30% for mid-slopes and ridges. Breezy west to southwest winds of 10-25 mph will develop in central California into the Great Basin and Arizona creating areas of elevated conditions, primarily over portions of Arizona where fuels are driest. Breezy and dry westerly winds of 15-20 mph will develop across the eastern Carolinas this afternoon amid relative humidity as low as 20% creating locally elevated conditions. Minimum relative humidity will continue to be below 30% for northern Minnesota, with northerly winds of 10-15 mph. A cold front will move through the northern third of the West today, with scattered showers from Washington and northern Oregon into Montana. Showers will continue in the eastern Great Lakes, with rain for much of New England, while scattered showers and thunderstorms develop across central Texas and southern Florida. Drier conditions are expected across Alaska today, with mild temperatures for much of the Interior into south-central Alaska.
