

**Incident Management Situation Report  
Friday, October 10, 2025 – 0730 MDT  
National Preparedness Level 1**

**National Fire Activity:**

<b>Fire Activity and Teams Assigned</b>	<b>Totals</b>
Initial attack activity:	Light (56 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	4
CIMTs committed:	3
NIMOs committed:	0

Nationally, there are zero fires being managed under a strategy other than full suppression.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

[Understanding the IMSR](#)

[IMSR Map](#)

This report will be posted every Friday at 0730 Mountain Time unless significant activity occurs.

**Northwest Area (PL 2)****Fire Activity and Teams Assigned****Totals**

New fires:	6
New large incidents:	0
Uncontained large fires:	4
CIMTs committed:	3

**Labor Mountain**, Okanogan-Wenatchee NF, USFS. CIMT (NW Team 12). Ten miles north of Cle Elum, WA. Timber and brush. Moderate fire behavior with flanking, backing and torching. Numerous structures threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Lower Sugarloaf**, Okanogan-Wenatchee NF, USFS. CIMT (NW Team 10). Twelve miles northeast of Leavenworth, WA. Grass, brush and timber. Moderate fire behavior with backing, creeping and smoldering. Numerous structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

**Moon Complex**, Rogue River-Siskiyou NF, USFS. CIMT (NW Team 7). Eleven miles northeast of Agness, OR. Closed timber litter and timber. Minimal fire behavior with creeping and smoldering. Numerous structures threatened. Area, road and trail closures in effect.

**Wildcat**, Okanogan-Wenatchee NF, USFS. Thirty miles west of Naches, WA. Timber, brush and closed timber litter. No new information.

**Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.**

## **Predictive Services Discussion:**

A couple deep upper-level troughs will affect the West this weekend and early to mid-next week. Showers, isolated thunderstorms, and snow in the mountains above 5,500 to 7,000 feet will occur with the storms. At least light rainfall is expected in southern California, as well. The first low will pull moisture north from decaying Tropical Storm Priscilla for widespread showers and scattered thunderstorms in the Southwest into early next week, with heavy rain and areas of flooding. Breezy southerly winds are expected on the Plains this weekend, as well, with widespread elevated to locally critical conditions on the southern Plains, and areas of elevated conditions in western Minnesota. A cold front is expected to move into the northern Plains this weekend, and Great Lakes early next week to bring relief from rainfall, but how much rain falls in Lower Michigan is uncertain. A Nor'easter will develop off the Carolina coast tomorrow and move off the Mid-Atlantic coast Monday, with heavy rain, strong northeast winds, and coastal flooding near the coast in the Mid-Atlantic, Long Island, and southern New England. Lighter rain and gusty winds will spread inland as well, but little to no rain is expected for northern New York and New England. The central and southern Appalachians will remain dry through the week, as well, with a period of dry and breezy northwest winds possible mid to late next week.
