

Incident Management Situation Report
Wednesday, September 3, 2025 – 0730 MDT
National Preparedness Level 3

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (111 fires)
New large incidents:	6
Large fires contained:	2
Uncontained large fires:	47
CIMTs committed:	19
NIMOs committed:	0

Nationally, there are 10 fires being managed under a strategy other than full suppression. Zero fires are in Alaska. Ten fires are in the Lower 48.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Isolated mixed wet/dry thunderstorms with gusty outflow winds will develop again over northeast California and central Oregon, where increasing IA could result in new large fires. Another day of near record temperatures with RH values in the low teens and poor overnight recovery is expected across the Northwest and Northern Rockies creating an overall fire environment which continues to be conducive to large fire growth. Elsewhere across the interior West, warm and dry weather continues under the ridge with generally light winds. Scattered showers are possible over the southern Great Basin and Arizona.

In the Eastern US, the cold front moves into the Great Lakes bringing cooler temperatures and light showers to the area. Generally cool, dry weather is expected across Texas and along the eastern states into New England.
