

**Incident Management Situation Report
Monday, September 8, 2025 – 0730 MDT
National Preparedness Level 4**

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Unknown
New large incidents:	1
Large fires contained:	1
Uncontained large fires:	61
CIMTs committed:	22
NIMOs committed:	0

Nationally, there are 10 fires being managed under a strategy other than full suppression. Zero fires are in Alaska. Ten fires are in the Lower 48.

Fires not managed under a full suppression strategy or fires managed under a full suppression strategy but utilizing a combination of tactics – such as monitoring, confinement or point zone protection – achieve specific fire management objectives while balancing the most effective utilization of resources. Fires managed as described above are identified in the situational report as Comp fires. Additional information including definitions can be found in the [NWCG glossary](#) or [here](#).

[Understanding the IMSR](#)

[IMSR Map](#)

Six US Army HH-60 MEDEVAC Helicopters from the 1st Air Cavalry Brigade (Fort Hood, TX) have been deployed to California to support wildland fire operations nationally.

Disclaimer: On September 7th, an all-day network outage affected the ability to log into the SIT/209 Application and submit ICS-209s, as well as daily fire statistics. The main IMSR tables are blank due to no new information in the system.

Northwest Area (PL 4)

Fire Activity and Teams Assigned

Totals

New fires:	Unknown
New large incidents:	0
Uncontained large fires:	20
CIMTs committed:	11

Crown Creek, Northeast Region, Washington DNR. CIMT (NW Team 12). CIMT is also managing the Katy Creek incident. Eighteen miles northeast of Kettle Falls, WA. Timber and brush. Active fire behavior with flanking, backing and torching. Numerous residences threatened. Evacuations and road closures in effect.

Katy Creek, Colville NF, USFS. Six miles northwest of Kettle Falls, WA. Timber and brush. Active fire behavior with flanking, backing and spotting. Structures threatened. Area and road closures in effect.

Rattlesnake, Colville Agency, BIA. CIMT (NW Team 7). CIMT is also managing the Lynx Mountain incident. Two miles west of Seven Bays, WA. Timber, brush and grass. Active fire behavior with wind-driven runs, torching and spotting. Residences and communication infrastructure threatened. Evacuations and road closures in effect. Precipitation occurred over the fire area yesterday.

Lynx Mountain, Colville Agency, BIA. Twenty-nine miles west of Chewelah, WA. Grass, brush and timber. Active fire behavior with backing, torching and spotting. Numerous residences threatened. Evacuations and road closures in effect. Precipitation occurred over the fire area yesterday.

Lower Sugarloaf, Okanogan-Wenatchee NF, USFS. CIMT (NW Team 3). CIMT is also managing the Labor Mountain incident. Seventeen miles northwest of Entiat, WA. Timber and brush. Active fire behavior with backing, flanking and wind-driven runs. Numerous structures and energy infrastructure threatened. Evacuations, area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Labor Mountain, Okanogan-Wenatchee NF, USFS. Ten miles north of Cle Elum, WA. Timber and brush. Moderate fire behavior with backing, flanking and single tree torching. Structures threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Wildcat, Okanogan-Wenatchee NF, USFS. CIMT (NW Team 10). Thirty miles west of Naches, WA. Brush, closed timber litter and timber. Moderate fire behavior with flanking, creeping and torching. Numerous structures threatened. Area, road and trail closures in effect.

Emigrant, Willamette NF, USFS. Transfer of command from CIMT (NW Team 13) to CIMT (CA Team 3) will occur tomorrow. Twenty-two miles southeast of Oakridge, OR. Medium slash, timber and closed timber litter. Active fire behavior with torching, flanking and uphill runs. Energy infrastructure threatened. Area, road and trail closures in effect. Precipitation occurred over the fire area yesterday.

Bridge, Malheur NF, USFS. CIMT (CA Team 4). Thirty-nine miles southwest of Baker City, OR. Timber and medium slash. Active fire behavior with backing, single tree torching and flanking. Residences and infrastructure threatened. Area, road and trail closures in effect.

Tacoma Creek, Northeast Region, Washington DNR. CIMT (GB Team 7). Started on private land 19 miles east of Colville, WA. Timber, light slash and brush. Moderate fire behavior with isolated torching, backing and flanking. Structures threatened. Road closures in effect.

Black Rock, Prineville District, BLM. Forty miles northeast of Madras, OR. Brush, timber and grass. Active fire behavior with wind-driven runs. Residences threatened. Evacuations in effect. Precipitation occurred over the fire area yesterday.

Perry, North Cascades NP, NPS. Sixteen miles northeast of Newhalem, WA. Timber and closed timber litter. Moderate fire behavior with backing and flanking. Structures threatened. Area and trail closures in effect.

Mark's Creek, Ochoco NF, USFS. CIMT (ODF Team 2). Eighteen miles east of Prineville, OR. Timber. No new information.

Moon Complex (3 fires), Rogue River-Siskiyou NF, USFS. CIMT (GB Team 5). Thirty-five miles northwest of Grants Pass, OR. Timber and brush. No new information.

Snow Peak, Colville NF, USFS. Nineteen miles west of Kettle Falls, WA. Timber, closed timber litter and brush. No new information.

Kelsey Peak, Medford District, BLM. CIMT (ODF Team 1). Fifteen miles west of Glendale, OR. Timber. No new information.

Bear Gulch, Olympic NF, USFS. Ten miles northwest of Hoodspport, WA. Timber. No new information.

Martin, Okanogan-Wenatchee NF, USFS. Forty-five miles northwest of Chelan, WA. Timber and brush. No new information. Last report unless new information is received.

TOTAL ACRES:		142,002	1,423,651	32,292	106,924	1,660,576	923,904	4,289,349

Ten Year Average	Quantity
Fires (2015 – 2024 as of today)	42,453
Acres (2015 – 2024 as of today)	5,721,412

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Above normal temperatures will persist from eastern Washington and Oregon across Idaho and the Northern and Central Rockies, although temperatures will be impacted in some areas due to smoke and increasing clouds. Early morning showers and thunderstorms may be ongoing in northern Washington and Montana along the Divide. Showers and thunderstorms will move into northwest California and western Oregon ahead of an incoming Pacific trough in the morning and increase north and east across northern California, central and western Oregon and parts of Washington through the afternoon and evening along with a significant decrease in temperatures and increases in humidity. Wetting rains are most likely in northwest California and western Oregon. Drier conditions are expected across much of the Northern Rockies, Great Basin, Central Rockies and the Southwest with humidity 15–20%, except for lower humidity 8–12% from the Southern California Mountains and deserts north across Nevada, western Utah and into southeast Oregon and southwest Idaho with breezy southwest winds 15–20 mph with gusts to 35 mph creating locally elevated conditions. Lingering moisture will allow for isolated thunderstorms in the Northern and Central Rockies and parts of Utah. Morning thunderstorms are possible in eastern Nebraska, Kansas and northern Oklahoma with storms developing later in the day from the Texas Panhandle north across the Central and Northern Plains to the Upper Midwest with warming temperatures.

In the Eastern US, scattered showers and thunderstorms will continue in Florida, along parts of the Gulf Coast and over far southern Texas with cooler and drier air across the rest of the East, with humidity 25–40%.
