

**Incident Management Situation Report
 Sunday May 24, 2026 – 0730 MDT
 National Preparedness Level 2**

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (78 fires)
New large incidents:	4
Large fires contained:	1
Uncontained large fires:	19
CIMTs committed:	1
NIMOs committed:	0

Southern California Area (PL 3)**Fire Activity and Teams Assigned****Totals**

New fires:	22
New large incidents:	0
Uncontained large fires:	5

Sandy, Ventura County Fire Department. One mile south of Simi Valley, CA. Brush and grass. Minimal fire behavior with smoldering and creeping. Critical infrastructure threatened. Area and trail closures in effect.

Santa Rosa Island, Channel Islands National Park, NPS. Thirty-three miles southwest of Santa Barbara, CA. Brush, grass and chaparral. Minimal fire behavior with creeping and smoldering. Structures threatened. Area closures in effect.

Verona, Riverside Unit, Cal Fire. One mile northwest of Hemet, CA. Grass and brush. Minimal fire behavior with smoldering. Reduction in acreage due to more accurate mapping.

Bain, Riverside Unit, Cal Fire. One mile south of Jurupa Valley, CA. Brush and grass. Minimal fire behavior with smoldering. Reduction in acreage due to more accurate mapping.

Tusil, San Diego Unit, Cal Fire. Five miles northeast of Campo, CA. Chaparral, brush and grass. No new information. Last narrative report unless new information is received.

Southern Area (PL 2)

Fire Activity and Teams Assigned

Totals

New fires:	26
New large incidents:	2
Uncontained large fires:	5

Cow Creek, Florida Forest Service. Eleven miles south of Bronson, FL. Timber and southern rough. Minimal fire behavior with creeping and smoldering. Structures threatened. Trail closures in effect.

* **Mile Marker 44 Broward**, Florida Forest Service. Thirty-five miles west of Hollywood, FL. Grass. Moderate fire behavior with running.

* **WaWa 2**, Avon Park Air Force Base, DOW. Nineteen miles west of Avon Park, FL. Grass, brush and timber. Moderate fire behavior with short-range spotting and wind-driven runs.

Shell, National Forests in Florida, USFS. Thirteen miles west of Deland, FL. Southern rough. Moderate fire behavior with flanking and backing.

Lochloosa West, Florida Forest Service. Six miles southwest of Hawthorne, FL. Timber and southern rough. Minimal fire behavior with smoldering and creeping.

TOTAL FIRES:		1,130	270	86	80	26,426	1,249	29,241
TOTAL ACRES:		81,208	16,634	13,734	46,365	2,031,128	186,320	2,375,387

Ten Year Average	Quantity
Fires (2016 – 2025 as of today)	20,435
Acres (2016 – 2025 as of today)	1,189,321

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

A frontal system centered across the Mississippi and Ohio River valleys will bring showers & thunderstorms from the Gulf Coast states northeastward to the southern and eastern Great Lakes as well as into the northeastern U.S. north to southern New Hampshire and southern Maine. Amounts will be variable, greatest across southern Louisiana northeast into southeastern Mississippi where 1 to 2 inch amounts are likely. Significant rainfall is also likely along the eastern seaboard from central Florida northward and 1 to 2 inch amounts are also likely across portions of the Northeast. A trough in the Plains from Texas north to Minnesota is likely to bring some showers & thunderstorms there with some severe thunderstorms possible, mainly due to wind & hail, from parts of Kansas into Nebraska, northwest Iowa, southeast South Dakota, & southern Minnesota. A weak trough pushing into a modest high pressure ridge across the Rockies is likely to spark off mostly isolated shower & mixed wet/dry thunderstorm activity across far northern California into southwestern Oregon, and from the southern Sierras northeast across Nevada into southern & eastern Idaho, far northern Utah, and portions of the Rockies of Wyoming and Colorado. Warm to hot, dry and locally breezy conditions are likely across much of the Southwest & Great Basin with some valley minimum relative humidities in the single digits to teens along with locally breezy conditions.
