**Incident Management Situation Report**
**Sunday November 1, 2026 – 0730 MDT**
**National Preparedness Level 1**

**National Fire Activity:**

| Fire Activity and Teams Assigned | Totals |
|---|---|
| Initial attack activity: | Light (58 fires) |
| New large incidents: | 1 |
| Large fires contained: | 0 |
| Uncontained large fires: | 7 |
| CIMTs committed: | 0 |
| NIMOs committed: | 0 |

| **TOTAL FIRES:** | | **2,946** | **2,568** | **203** | **387** | **56,003** | **5,533** | **67,640** |
| **TOTAL ACRES:** | | **357,543** | **3,393,775** | **98,893** | **92,650** | **3,880,647** | **1,565,397** | **9,388,904** |

| Ten Year Average | Quantity | % of Ten Year Average |
|---|---|---|
| **Fires** (2016 – 2025 as of today) | **50,985** | **133%** |
| **Acres** (2016 – 2025 as of today) | **6,435,306** | **146%** |

**Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.**

**Predictive Services Discussion:**

Very dry air will continue in the central and southern Appalachians with minimum relative humidity falling to 20-30% but with light winds. Farther north, low minimum relative humidity as low as 30% will continue in the Northeast but winds will be lighter than yesterday. Above normal temperatures persist in the Plains and Mississippi Valley but relative humidity will remain elevated, while scattered showers and thunderstorms develop in the Lower Mississippi Valley and the central Plains. Deep tropical moisture will move across Florida with widespread showers and scattered thunderstorms with locally heavy rain. A Pacific storm associated with deep tropical moisture will move through the Intermountain West. Heavy rain is expected in the Four Corners states, with the heaviest rain in Arizona and southwest Colorado producing areas of flooding. Farther north, lighter precipitation is expected, which will fall as snow above 7,000 feet in the northern Rockies. Scattered light precipitation is expected across the southern half of Alaska along with temperatures that cool to near normal. Trade winds return today across Hawai'i with isolated light windward showers.
