Incident Management Situation Report
Friday November 6, 2026 – 0730 MDT
National Preparedness Level 1

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (57 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	4
CIMTs committed:	0
NIMOs committed:	0

Eastern Area (PL 1)

Fire Activity and Teams Assigned	**Totals**
New fires:	40
New large incidents:	0
Uncontained large fires:	2

Wild River, White Mountain NF, USFS. Five miles southwest of Shelburne, NH. Hardwood litter. Minimal fire behavior with creeping and smoldering. Reduction in acreage due to more accurate mapping.

Ridge, Michigan DNR. Six miles north of Negaunee, MI. Timber and hardwood litter. Minimal fire behavior. Structures threatened. Trail closures in effect.

Incident Name	Unit	Total Acres	Chge in Acres	%	Ctn	Est	Total PPL	Chge in PPL	Crw	Eng	Heli	Strc Lost	$$ CTD	Origin Own

Northwest Area (PL 1)

Fire Activity and Teams Assigned	**Totals**
New fires:	3
New large incidents:	0
Uncontained large fires:	1

Sisi, Okanogan-Wenatchee NF, USFS. Ten miles northwest of Stehekin, WA. Timber and closed timber litter. Minimal fire behavior with smoldering, backing and creeping. Residences threatened.

TOTAL FIRES:		**2,965**	**2,570**	**203**	**388**	**56,494**	**5,559**	**68,179**
TOTAL ACRES:		**436,825**	**3,393,832**	**98,893**	**92,650**	**3,883,245**	**1,565,563**	**9,471,008**

Ten Year Average	Quantity	% of Ten Year Average
Fires (2016 – 2025 as of today)	**52,051**	**131%**
Acres (2016 – 2025 as of today)	**6,466,267**	**146%**

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

A cold front will slowly move off the East Coast today but will briefly stall near the New England coast as weak surface low pressure develops along it. Locally heavy rain will fall along the New England coast, with lighter rain falling from the eastern Carolinas to the Mid-Atlantic coast and eastern Great Lakes. Dry conditions are expected across much of the Plains into the Southeast and minimum relative humidity will remain well above critical thresholds amid mostly light winds. An upper-level low will move through the Southwest with scattered showers and isolated thunderstorms, while dry conditions are expected in the northern Intermountain West amid above normal temperatures. A strong Pacific storm will move into British Columbia and bring rain to western Washington with high elevation snow in the north Cascades. Areas of light snow are expected across central and eastern Interior Alaska today while relatively dry conditions are expected near the Bering Sea and showers occur in the panhandle. Breezy trade winds will continue across Hawai'i, but will be locally stronger for Maui and the Big Island with an increase in showers expected for those islands, as well.
