Incident Management Situation Report
Thursday November 12, 2026 – 0730 MDT
National Preparedness Level 1

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (47 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	5
CIMTs committed:	0
NIMOs committed:	0

Southern Area (PL 2)

Fire Activity and Teams Assigned	**Totals**
New fires:	18
New large incidents:	0
Uncontained large fires:	2

Bee Haven 2 24-06, Florida Forest Service. Twenty-eight miles northwest of Lake City, FL. Southern rough. Minimal fire behavior with smoldering.

Campbell Glassman Way, Tennessee DOF. Ten miles north of Caryville, TN. Hardwood litter. No new information.

Incident Name	Unit	Total Acres	Chge in Acres	%	Ctn	Est	Total PPL	Chge in PPL	Crw	Eng	Heli	Strc Lost	$$ CTD	Origin Own

TOTAL FIRES:		**2,970**	**2,576**	**203**	**390**	**56,952**	**5,588**	**68,679**
TOTAL ACRES:		**436,848**	**3,393,845**	**98,892**	**92,656**	**3,883,319**	**1,566,945**	**9,472,505**

Ten Year Average	Quantity	% of Ten Year Average
Fires (2016 – 2025 as of today)	**52,840**	**130%**
Acres (2016 – 2025 as of today)	**6,518,735**	**145%**

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Low pressure will move through the Northeast today, with widespread precipitation, falling as snow in northern New York and New England, while scattered showers occur farther south in the Mid-Atlantic and Carolinas. Rain will also change to snow in the higher elevations of the Appalachians during the day as cold air moves in. Precipitation will linger downwind of the Great Lakes through the day, while breezy northerly winds occur in the Mid to Upper Mississippi Valley but relative humidity will remain elevated. Mostly dry conditions will continue in the West amid temperatures above normal, with temperatures 15-25°F above normal for the northern Intermountain West. Scattered showers will continue west of the Cascades, as well. Scattered light showers across southwest Alaska, but drier conditions are expected for south-central Alaska as seasonable temperatures and dry conditions occur in the Interior. Breezy trade winds will continue across Hawai'i with an increase in showers for the northern islands as a weakening cold front approaches.
