Incident Management Situation Report
Friday November 13, 2026 – 0730 MDT
National Preparedness Level 1

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (65 fires)
New large incidents:	2
Large fires contained:	2
Uncontained large fires:	4
CIMTs committed:	0
NIMOs committed:	0

Southern Area (PL 2)

Fire Activity and Teams Assigned	**Totals**
New fires:	50
New large incidents:	1
Uncontained large fires:	3

*** Red Hill**, National Forests in Mississippi, USFS. Nine miles northeast of Brooklyn, MS. Timber, southern rough and grass. Moderate fire behavior with backing.

Bee Haven 2 24-06, Florida Forest Service. Twenty-eight miles northwest of Lake City, FL. Southern rough. Minimal fire behavior with smoldering.

Campbell Glassman Way, Tennessee DOF. Ten miles north of Caryville, TN. Hardwood litter. Minimal fire behavior.

TOTAL FIRES:		**2,971**	**2,579**	**203**	**390**	**57,016**	**5,594**	**68,753**
TOTAL ACRES:		**436,851**	**3,405,030**	**98,892**	**92,656**	**3,883,769**	**1,566,996**	**9,484,195**

Ten Year Average	Quantity	% of Ten Year Average
Fires (2016 – 2025 as of today)	**53,007**	**130%**
Acres (2016 – 2025 as of today)	**6,518,748**	**145%**

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Low pressure will move away from the New England coast, with precipitation gradually winding down in the Northeast. Lake affect showers will continue off the Great Lakes, with scattered showers into the central Appalachians due to upslope northwest flow, falling as snow above 2,500 to 3,000 feet. Dry conditions with minimum relative humidity of 20-40% will continue in the Lower Mississippi Valley and Southeast, but winds will be lighter today and mostly 7-12 mph keeping elevated conditions isolated. Mostly dry conditions will continue Intermountain West and Plains, with temperatures 15-25°F above normal for the northern Intermountain West. A Pacific storm will move into the West Coast with rain and high-elevation snow most widespread from the Sierra and Cascades westward, with light precipitation moving east of those mountain ranges overnight. Mostly dry and seasonably cold temperatures are expected in Alaska, while breezy to strong trade winds continue in Hawai'i with light windward showers.
