Incident Management Situation Report
Monday November 16, 2026 – 0730 MDT
National Preparedness Level 1

National Fire Activity:

Fire Activity and Teams Assigned	Totals
Initial attack activity:	Light (62 fires)
New large incidents:	0
Large fires contained:	0
Uncontained large fires:	5
CIMTs committed:	0
NIMOs committed:	0

Southern Area (PL 2)

Fire Activity and Teams Assigned	**Totals**
New fires:	57
New large incidents:	0
Uncontained large fires:	4

201W, National Forests in Mississippi, USFS. Seven miles southwest of New Augusta, MS. Southern rough and timber. No new information.

Range 47, National Forests in Mississippi, USFS. Sixteen miles southeast of Hattiesburg, MS. Southern rough. No new information.

Bee Haven 2 24-06, Florida Forest Service. Twenty-eight miles northwest of Lake City, FL. Southern rough. No new information. Last narrative report unless new information is received.

Campbell Glassman Way, Tennessee DOF. Ten miles north of Caryville, TN. Hardwood litter. No new information. Last narrative report unless new information is received.

Southern Area	ACRES	87,896	72	52,776	44,936	1,259,594	69,658	**1,514,931**
TOTAL FIRES:		**2,973**	**2,579**	**203**	**390**	**57,258**	**5,617**	**69,020**
TOTAL ACRES:		**436,883**	**3,406,876**	**98,892**	**92,656**	**3,884,846**	**1,572,341**	**9,492,494**

Ten Year Average	Quantity	% of Ten Year Average
Fires (2016 – 2025 as of today)	**53,564**	**129%**
Acres (2016 – 2025 as of today)	**6,536,249**	**145%**

Cumulative acres shown in the Active Incident Resource Summary Table may not be reflected in the YTD statistics due to a lag in units completing YTD adjustments in the SIT/209 Application. Otherwise, changes in agency YTD fires and acres reflect more accurate mapping or reporting adjustments.

Predictive Services Discussion:

Dry conditions will persist in much of the Southeast and Lower Mississippi Valley, but relative humidity will be higher and above 30% amid light winds. Dry conditions will return to the Northeast, with temperatures below normal. Dry conditions are expected in the Plains while temperatures remain above normal across the northern Plains. A cold front will continue to slowly move through the Intermountain West with valley rain and mountain snow showers. Another brief period of drier conditions are expected along the West Coast. A storm in the Gulf of Alaska will bring more precipitation to southern Alaska and the panhandle while a few flurries are expected in southwest Alaska to the western Interior. In Hawai'i, breezy trade winds will persist with an increase in windward showers overnight.
