

**SMOKING :30**

HOT WEATHER MAKES FIRE DANGER! TERRIBLE WILDFIRES CAN START WITH ONE CARELESS MOMENT. EXTREMELY DRY CONDITIONS AND HIGH TEMPERATURES CREATE VERY DANGEROUS SITUATIONS THAT CAN TURN INTO DISASTER IN JUST A FEW MOMENTS. YOU CAN HELP. WHEN YOU ARE OUTSIDE, PLEASE BE CAREFUL WITH SMOKING MATERIALS. USE AN ASHTRAY, AND MAKE SURE THAT ALL EMBERS ARE COMPLETELY EXTINGUISHED. REMEMBER, YOU ARE THE PERSON WHO CAN HELP PREVENT RANGE AND FOREST FIRES!

THANK YOU FROM THE NATIONAL INTERAGENCY FIRE CENTER.
