| National Fire Activity (April 5, 2024 - April 11, 2024): |  |
| :--- | :---: |
| Fire Activity and Teams Assigned | Totals |
| Initial attack activity: | Light (480 fires) |
| New large incidents: | 31 |
| Large fires contained: | 26 |
| Uncontained large fires: | 7 |
| CIMTs committed: | 0 |
| NIMOs committed: | 0 |

Nationally, there are zero fires being managed under a strategy other than full suppression. Uncontained large fires include only fires being managed under a full suppression strategy.

## Understanding the IMSR

## IMSR Map

This report will be posted every Friday at $\mathbf{0 7 3 0}$ Mountain Time unless significant activity occurs.

## Predictive Services Discussion:

A cold front will move off the East Coast today, with precipitation ending in the Northeast and Mid-Atlantic and dry and breezy northwesterly winds behind the front across the Southeast into Saturday. An upper low will bring light precipitation to portions of the Northwest into the northern Great Basin into this weekend, with moderate precipitation likely for California. Well above normal temperatures are forecast ahead of the low across the Southwest into the southern and central High Plains. Dry, southwesterly winds will likely produce elevated to critical conditions across southern New Mexico Sunday spreading onto much of the central Plains and western Mid-Mississippi Valley Monday. Another upper low is likely to drop into the Northwest and northern Rockies Monday, with light precipitation spreading across portions of the Northwest into the northern Plains and snow levels. As these systems move onto the Plains mid-next week, wetting rain is forecast for much of the eastern Plains into the Mississippi Valley and Great Lakes, while severe thunderstorms are likely on the central/southern Plains. Periods of snow are expected across much of western Alaska and the Interior this weekend, with strong downslope winds forecast downwind of the Alaska Range. A strong low to the northwest of Hawai'i is forecast to bring heavy rain to portions of Niihau and Kauai today into tomorrow, with scattered showers moving across the rest of the islands this weekend.

## National Predictive Services Outlook

## 6 Minutes for Safety:

The 6 Minutes for Safety topic of the day is Uniformed on Strategy, Tactics, or Hazards.
